## **Crisis And Innovation In Asian Technology:**

*Crisis and Innovation in Asian Technology* William W. Keller, Richard J. Samuels, 2003-02-03 In mid May 1997 a financial crisis erupted in Asia after an attack by private investors on the baht the Thai currency The crisis spread quickly across the region where investor confidence plummeted resulting in massive capital outflows stock market collapses high unemployment and even insurrection The Asian economic miracle that had stimulated so much awe and even dread now invoked pity and apprehension in greater measure The contributors to this volume investigated change in the innovation and production systems of Asian states in response to economic and political upheaval They conducted empirical studies of several regional industries autos semiconductors and hard disk drives and seven different national economies China Malaysia Japan Singapore South Korea Thailand and Taiwan In the face of crisis and global competition the Asian states superimposed change at the margins seeking unique technohybrid solutions to build capabilities to compete in local regional and even global markets

*The Economy-security Nexus in Northeast Asia* T. J. Pempel, 2013 The dynamics of Northeast Asia have traditionally been considered primarily in military and hard security terms or alternatively along their economic dimensions This book argues that relations among the states of Northeast Asia are far more comprehensible when the mutually shaping interactions between economics and security are considered simultaneously It examines these interactions and some of the key empirical questions they pose the answers to which have important lessons for international relations beyond Northeast Asia Contributors to this volume analyze how the states of the region define their security and how bilateral relations in hard security issues and economic linkages play out among Japan China and the two Koreas Further the chapters interrogate how different patterns of techno nationalist development affect regional security ties and the extent to which closer economic connections enhance or detract from a nation's self perceived security The book concludes by discussing scenarios for the future and the conditions that will shape relations between economics and security in the region This book will be welcomed by students and scholars of Asian politics Asian economics security studies and political economy

*Experimental Learning, Inclusive Growth and Industrialised Economies in Asia* Chan-Yuan Wong, 2022-07-05 This book explores how small nations can mobilise and use productive activities to generate inclusive growth and rapidly move up the economic ladder In this study Dr Wong explores how Korea and Taiwan came to balance between commanding critical technological competencies and driving inclusive economic agendas and ultimately culminates decades of moving up the value chain for the two Asian dynamos In a world dominated by superpowers Dr Wong demonstrates how agile nimble mid sized economies can move fast innovate and achieve post industrial catch up development This book will interest scholars of the Asian manufacturing sector those with an interest in the role semiconductors play in the global economy and scholars of Asian development

**Techno-Geopolitics** Pak Nung Wong, 2021-09-23 Techno Geopolitics explores contemporary U S China relations and the future of global cyber security through the prisms of geopolitics and financial technological competition It puts forward a

new conceptual framework for an emerging field of digital statecraft and discusses a range of key issues including the controversies around 5G technology policy regulations over TikTok and WeChat the emergence of non traditional espionage and potential trends in post pandemic foreign policy Analysing the ramifications of the ongoing U S China trade standoff this book maps the terrain of technological war and the race for global technological leadership and economic supremacy It shows how China s technological advancements not only have been the key to its national economic development but also have been the core focus of U S intelligence Further it draws on U S China counterintelligence cases sourced from the U S Department of Justice and Federal Bureau of Investigation FBI to explore emerging patterns and techniques of China s espionage practice A cutting edge study on the future of statecraft this volume will be of great interest to scholars and researchers of international relations security and intelligence studies information technology and artificial intelligence and political science especially U S foreign policy and China studies It will also be of great interest to policymakers career bureaucrats security and intelligence practitioners technology regulators and professionals working with think tanks and embassies
