## **Crisis In The Courts:**

Crisis in the Courts Howard James, 1968 Based on a series of articles that appeared in the Christian Science Monitor April to July 1967      **The Crisis in America's Criminal Courts** William R. Kelly, 2021 The Crisis in America's Criminal Courts highlights a variety of problems that judges prosecutors and public defenders face within a criminal justice system that is ineffective unfair and extraordinarily expensive While many argue and author William R Kelly agrees that crushing caseloads and court dockets certainly qualify as a crisis Kelly suggests there is a much greater crisis in the courts that results in profound downstream effects on criminal justice performance and outcomes It sounds simple but the greatest risk faced by the justice system is the lack of time expertise and resources for effective decision making In this book Kelly proposes a variety of evidence based reforms that as a start provide the key decision makers with professional clinical experts to accurately assess and advice regarding mitigating the circumstances that bring individuals into the courts We must rebalance We need incarceration for those who are too dangerous or violent or who are habitual offenders For most of the rest we need to manage risk but very importantly it is time to get serious about behavioral change We need to change the culture of the courthouse and reorient how we think about crime and punishment      New York Court of Appeals. Records and Briefs. New York (State).,      *The Federal Courts* Richard A. Posner, 1999-09-15 Drawing on economic and political theory legal analysis and his own extensive judicial experience Posner sketches the history of the federal courts describes the contemporary institution appraises concerns that have been expressed with their performance and presents a variety of proposals for both short term and fundamental reform      **The Art and Practice of Court Administration** Alexander B. Aikman, 2017-09-25 The Art and Practice of Court Administration explores the context in which court administration is practiced and identifies the qualities and skills court administrators need Divided into two major parts part one covers the history of the field and how courts are organized environmental conditions in which court administration is practiced special impact on courts of the elected clerk of court prosecutor and the sheriff the judge's administrative roles as well as how a judge's judicial and administrative roles work with management The second part reviews a new approach for setting and adjusting priorities among the multiple functions courts perform the Hierarchy of Court Administration It defines priorities analyzes court roles that establish mission critical functions and sets an agenda for advancing courts throughout this century Thorough and complete The Art and Practice of Court Administration details how courts operate the court administrator's position and responsibilities and approaches to issues and problems      The Crisis in the Courts. Economic Governance in Europe Federico Fabbrini, 2016-01-29 The Euro Crisis and the legal and institutional responses to it have had important constitutional implications on the architecture of the European Union EU Going beyond the existing literature Federico Fabbrini's book takes a broad look and examines how the crisis and its aftermath have changed relations of power in the EU disaggregating three different dimensions 1 the vertical relations of power between the member states

and the EU institutions 2 the relations of power between the political branches and the courts and 3 the horizontal relations of power between the EU member states themselves The first part of the book argues that in the aftermath of the Euro crisis power has been shifting along each of these axes in paradoxical ways In particular through a comparison of the United States Fabbrini reveals that the EU is nowadays characterized by a high degree of centralization in budgetary affairs an unprecedented level of judicialization of economic questions and a growing imbalance between the member states in the governance of fiscal matters As the book makes clear however each of these dynamics is a cause for concern as it calls into question important constitutional values for the EU such as the autonomy of the member states in taking decision about taxing and spending the preeminence of the political process in settling economic matters and the balance between state power and state equality The second part of the book therefore devises possible options for future legal and institutional developments in the EU which may revert these paradoxical trends In particular Fabbrini considers the ideas of raising a fiscal capacity restoring the centrality of the EU legislative process and reforming the EU executive power and discusses the challenges that accompany any further step towards a deeper Economic and Monetary Union

Constitutionalism Under Extreme Conditions Richard Albert, Yaniv Roznai, 2020-09-24 This book examines the problem of constitutional change in times of crisis Divided into five main parts it both explores and interrogates how public law manages change in periods of extraordinary pressure on the constitution In Part I Emergency Exception and Normalcy the contributors discuss the practices and methods that could be used to help legitimize the use of emergency powers without compromising the constitutional principles that were created during a period of normalcy In Part II Terrorism and Warfare the contributors assess how constitutions are interpreted during times of war focusing on the tension between individual rights and safety Part III Public Health Financial and Economic Crises considers how constitutions change in response to crises that are neither political in the conventional sense nor violent which also complicates how we evaluate constitutional resilience in times of stress Part IV Constitutionalism for Divided Societies then investigates the pressure on constitutions

designed to govern diverse multi national populations and how constitutional structures can facilitate stability and balance in these states Part V titled Constitution Making and Constitutional Change highlights how constitutions are transformed or created anew during periods of tension The book concludes with a rich contextual discussion of the pressing challenges facing constitutions in moments of extreme pressure Chapter Public Health Emergencies and Constitutionalism Before COVID 19 Between the National and the International is available open access under a Creative Commons Attribution 4 0 International License via link [springer com](https://www.springer.com)      Reports of Cases Decided by the English Courts Nathaniel Cleveland
