Crisis Of Modernity:

The Crisis of Modernity Karel Kosík, 1995 These essays containing the reflections of the most influential philosopher of the Prague Spring deal with the crisis of state party society and the individual in Czechoslovakia existing up until December 1969 Known primarily to English speaking audiences as the author of *Dialectics of the Concrete* Kosik is recognized for his contribution to the ongoing scholarship intended to relate Marx's ideas to the contemporary world All of the essays in this collection appeared originally in Czechoslovakia over a period from 1961 to 1969 This edition making most of them available to English readers for the first time includes a new preface by Kosik and reflects his own changes to the earlier versions incorporating material which was cut out by censors at their original publication *The Crisis of Modernity* Augusto Del Noce, Carlo Lancellotti, 2015-01-01 A selection of essays on modernity and secularization by one of the most distinguished Italian thinkers of the mid twentieth century *The Crisis Of Modernity* Gunter H. Lenz, Kurt L. Shell, 2019-06-18 The crisis of the project of modernity Habermas is at the same time a crisis of critical theories of society and culture that have radically questioned bourgeois culture and capitalist society and economy from the perspective of a utopia of enlightened rationality A number of parallel recent social and political problems developments and *Jacob Burckhardt and the Crisis of Modernity* John Roderick Hinde, 2000 Jacob Burckhardt and the Crisis of Modernity the first major study in English dedicated entirely to Burckhardt offers a compelling and timely analysis of Burckhardt's challenge to the values and assumptions of modern society Unlike conventional accounts which characterize him as an apolitical aesthete John Hinde shows that Burckhardt was a thinker of profound importance whose conservative anti modernism ranks him with Friedrich Nietzsche Book jacket

The Brazilian Popular Church and the Crisis of Modernity Manuel A. Vasquez, 1998 This 1997 study explores one of the most dramatic current interactions between religion and politics the development of progressive Catholicism in Latin America In particular it examines economic social and religious obstacles to progressive theology in Brazil This popular church built a utopian vision of social emancipation drawing on Catholic social thought humanistic Marxism and existentialism It was a major democratizing force as Brazil emerged from dictatorship in the late 1970s In the 1980s however the popular appeal of progressive Catholicism came under threat Focusing on a Catholic community near Rio de Janeiro Manuel A V squez's incisive study shows how economic and political changes have affected religious practices and argues that the plight of progressive Catholicism in Brazil forms part of a wider crisis of modernity and of humanist discourses

State of Crisis Zygmunt Bauman, Carlo Bordoni, 2014-07-17 Today we hear much talk of crisis and comparisons are often made with the Great Depression of the 1930s but there is a crucial difference that sets our current malaise apart from the 1930s today we no longer trust in the capacity of the state to resolve the crisis and to chart a new way forward In our increasingly globalized world states have been stripped of much of their power to shape the course of events Many of our problems are globally produced but the volume of power at the disposal of individual nation states is simply not sufficient to

cope with the problems they face This divorce between power and politics produces a new kind of paralysis It undermines the political agency that is needed to tackle the crisis and it saps citizens belief that governments can deliver on their promises The impotence of governments goes hand in hand with the growing cynicism and distrust of citizens Hence the current crisis is at once a crisis of agency a crisis of representative democracy and a crisis of the sovereignty of the state In this book the world renowned sociologist Zygmunt Bauman and fellow traveller Carlo Bordoni explore the social and political dimensions of the current crisis While this crisis has been greatly exacerbated by the turmoil following the financial crisis of 2007 8 Bauman and Bordoni argue that the crisis facing Western societies is rooted in a much more profound series of transformations that stretch back further in time and are producing long lasting effects This highly original analysis of our current predicament by two of the world s leading social thinkers will be of interest to a wide readership

The Detective of Modernity Georgia Giannakopoulou, Graeme Gilloch, 2020-12-30 This book explores the thought of and is dedicated to David Frisby one of the leading sociologists of the late twentieth and early twenty first centuries Presenting original examinations of his unique social theory and underlining his interdisciplinary approach to the critical interpretation of modern metropolitan society and culture it emphasises Frisby s legacy in highlighting the role of the social researcher as a collector reader observer detective and archivist of the phenomena and ideas that exemplify the modern metropolis as society With contributions from sociologists cultural theorists historians of the city urban geographers and designers and architectural historians and theorists *The Detective of Modernity* constitutes a wide ranging engagement with Frisby s profound legacy in social and cultural theory

Modernity and Crisis in the Thought of Michel Foucault Matan Oram, 2016-07-01 Few studies of Foucault have examined his thought from a sustained interdisciplinary perspective Through the interpretative prism of the concept of the Totality of Reason this book suggests an original analytical reading of Foucault s thought This book addresses Foucault s characterizations of the Enlightenment asking whether the developmental history of the modern conception of knowledge from the Renaissance to the Enlightenment warrants the conclusion he draws From the perspective of a critical evaluation of Foucault s thesis on the crisis of modernity the book examines whether Foucault the philosophical and social critic truly belongs to those intellectual trends known as a deconstruction and post modernism that advocate a wholesale rejection of the project of modernity demonstrating how a classification of this kind contributes to an impoverishment of our understanding of Foucault s thought This book will attract the attention of readers interested in Foucault and what is broadly perceived to be the crisis of modernity It will appeal to scholars and advanced students of sociology political philosophy and political science psychology philosophy interdisciplinary studies and cultural studies

The Crisis of Modernity Ann-Catherine Nabholz, 2007

Revolt Against Modernity Ted V. McAllister, 1996 Provides the first comparison of the thought of these two political philosophers and its influence on contemporary American conservatism

Intellectuals and the Crisis of Modernity Carl Boggs, 1993-01-01 This book explores the role of intellectuals in politics and social change

from traditional society to the present Its theoretical structure is based upon six distinct types of intellectual activity The rise and decline of specific types is analyzed in the historical context of industrialization technological change shifting social forces and the emergence of popular movements **Jewish Philosophy and the Crisis of Modernity** Leo

Strauss,2012-02-01 This is the first book to bring together the major essays and lectures of Leo Strauss in the field of modern Jewish thought It contains some of his most famous published writings as well as significant writings which were previously unpublished Spanning almost 30 years of continuously deepening reflection the book presents the full range of Strauss s contributions as a modern Jewish thinker These essays and lectures also offer Strauss s mature considerations of some of the great figures in modern Jewish thought such as Baruch Spinoza Hermann Cohen Franz Rosenzweig Martin Buber Theodor Herzl and Sigmund Freud They also encompass his incisive analyses and original explorations of modern Judaism which he viewed as caught in the grip of the theological political crisis from German Jewry anti Semitism and the Holocaust to Zionism and the State of Israel from the question of assimilation to the meaning and value of Jewish history In addition Strauss s two sustained interpretations of the Hebrew Bible are also reprinted These essays and lectures cumulatively point toward the postcritical reconstruction of Judaism which Strauss envisioned suggesting it rebuild along Maimonidean lines Thus the book lends credence to the view that Strauss was able to uncover and probe the crisis at the heart of modern Jewish thought and history perhaps with greater profundity than any other contemporary Jewish thinker *Modernity at Sea* Cesare

Casarino,2002 At once a literary philosophical meditation on the question of modernity and a manifesto for a new form of literary criticism *Modernity at Sea* argues that the nineteenth century sea narrative played a crucial role in the emergence of a theory of modernity as permanent crisis In a series of close readings of such works as Herman Melville s *White Jacket* and *Moby Dick* Joseph Conrad s *The Nigger of the Narcissus* and *The Secret Sharer* and Karl Marx s *Grundrisse* Cesare Casarino draws upon the thought of twentieth century figures including Giorgio Agamben Louis Althusser Walter Benjamin Leo Bersani Gilles Deleuze Félix Guattari and Antonio Negri to characterize the nineteenth century ship narrative as the epitome of Michel Foucault s heterotopia a special type of space that simultaneously represents inverts and contests all other spaces in culture Elaborating Foucault s claim that the ship has been the heterotopia par excellence of Western civilization since the Renaissance Casarino goes on to argue that the nineteenth century sea narrative froze the world of the ship just before its disappearance thereby capturing at once its apogee and its end and producing the ship as the matrix of modernity

Modernity in Crisis L. Donskis,2011-08-15 A blend of political theory social theory and philosophy of culture the book will show the relationship and tension between thought and action politics and literature power and dissent in modern politics and culture *The Crisis of Global Modernity* Prasenjit Duara,2014-12-11 In this major new study Prasenjit Duara expands his influential theoretical framework to present circulatory transnational histories as an alternative to nationalist history Duara argues that the present day is defined by the intersection of three global changes the rise of non western

powers the crisis of environmental sustainability and the loss of authoritative sources of what he terms transcendence the ideals principles and ethics once found in religions or political ideologies The physical salvation of the world is becoming and must become the transcendent goal of our times but this goal must transcend national sovereignty if it is to succeed Duara suggests that a viable foundation for sustainability might be found in the traditions of Asia which offer different ways of understanding the relationship between the personal ecological and universal These traditions must be understood through the ways they have circulated and converged with contemporary developments

The Crisis in Modernism Frederick Burwick, Paul Douglass, 2010-02-25 The Modernist movement has been regarded as representing a crisis point in Western thought This volume looks at that crisis in terms of its reinterpretation of ideas concerning vitalism the animation of the universe whether spiritual or based in physical energies of the universe Beginning with vitalism's historical background in the enlightenment and the nineteenth century and moving through scientific philosophical and literary disciplines the contributors chart the progress of vitalism and its influence on modernist thought The focal point is the work of Henri Bergson whose part in this powerful reinterpretation had a considerable bearing on European and American intellectual life and yet led to a vehement rejection of his work A previously untranslated and little known essay by Bakhtin will be of special interest in this stimulating collection which includes original contributions from leading scholars in literature the history of science biology and philosophy and comprises a wide ranging reassessment of the perpetual crises of modernity

The Crisis of Modernity Gunter H Lenz, Kurt L Shell, 2020-06-30 The crisis of the project of modernity Habermas is at the same time a crisis of critical theories of society and culture that have radically questioned bourgeois culture and capitalist society and economy from the perspective of a utopia of enlightened rationality A number of parallel recent social and political problems developments and

Thinking Faith After Christianity Martin Koci, 2020-06-01 Examines theological motifs in the work of Jan Patočka drawing out their implications for contemporary theology and philosophy of religion

The Crisis of the Modern World René Guénon, 2002-11 In the first half of the 20th century a French man René Guénon 1886 1951 struck the conscience of the Western world by reminding it about the spiritual knowledge that was at the heart of all traditional civilizations but that the modern West had completely lost sight of A profound knower of Hindu Islamic Taoist and other traditions Guénon expounded in a similar way as Coomaraswamy with whom he regularly corresponded the traditional metaphysics which give unity beyond the forms to the apparently different traditions of mankind In *The Crisis of the Modern World* published for the first time in 1927 he writes a relentless and radical criticism of the modern world revealing its shallowness when confronted with the traditional civilizations Almost eighty years later his words are still fully valid and applicable to a large extent to the India of today which is in danger of being submerged by a strong flow of modern ways and conceptions

Can We Live Together? Alain Touraine, David Macey, 2000 In this book a leading French social thinker grapples with the gap between the tendency toward globalization of economic relations and mass culture and the

increasingly sectarian nature of our social identities as members of ethnic religious or national groups Though at first glance it might seem as if the answer to the question Can we live together is that we already do live together watching the same television programs buying the same clothes and even using the same language to communicate from one country to another the author argues that in important ways we are farther than ever from belonging to the same society or the same culture Our small societies are not gradually merging into one vast global society instead the simultaneously political territorial and cultural entities that we once called societies or countries are breaking up before our eyes in the wake of ethnic political and religious conflict The result is that we live together only to the extent that we make the same gestures and use the same objects we do not communicate with one another in a meaningful way or govern ourselves together What power can now reconcile a transnational economy with the disturbing reality of introverted communities The author argues against the idea that all we can do is agree on some social rules of mutual tolerance and respect for personal freedom and forgo the attempt to forge deeper bonds He argues instead that we can use a focus on the personal life project the construction of an active self or subject ultimately to form meaningful social and political institutions The book concludes by exploring how social institutions might be retooled to safeguard the development of the personal subject and communication between subjects and by sketching out what these new social institutions might look like in terms of social relations politics and education
