Crisis in Soviet Agriculture Stefan Hedlund, 2019-08-06 This book first published in 1984 analyses the institutions and decision making processes that determined agricultural production in the Soviet Union It addresses the crisis in Soviet agriculture of the early 1980s examining the problems of low productivity adverse natural conditions and an underdeveloped infrastructure The book s analysis of the crisis focuses on the growing gap between demand and supply of agricultural produce and the pressures on the government to alleviate the food shortages *The Crisis in Soviet Agriculture* ,1954

The Industrialisation of Soviet Russia Volume 4: Crisis and Progress in the Soviet Economy, 1931-1933 R. W. Davies, 2016-07-27 The profound economic crisis of 1931-33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People s Commissars the author shows how during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991 **The Years of Hunger: Soviet Agriculture, 1931-1933**

R. Davies, S. Wheatcroft, 2016-01-13 This book examines the Soviet agricultural crisis of 1931-1933 which culminated in the major famine of 1933 It is the first volume in English to make extensive use of Russian and Ukrainian central and local archives to assess the extent and causes of the famine It reaches new conclusions on how far the famine was organized or artificial and compares it with other Russian and Soviet famines and with major twentieth century famines elsewhere Against this background it discusses the emergence of collective farming as an economic and social system The Many Crises of the Soviet Economy
