MEDIOS Y SOCIEDAD EN TRANSFORMACIÓN. Desafíos y narrativas de poder Barquero Cabrero, José Daniel ; Ruiz Callejón, Encarnación ; Ramos Ruiz, Álvaro ; López Carrillo, Enric, La comunicación ha sido siempre un territorio en disputa un espacio en el que convergen múltiples fuerzas que buscan moldear el relato de la realidad En la sociedad actual donde la digitalización ha multiplicado las posibilidades de interacción y difusión de información las tensiones entre el poder los medios y la ciudadanía se han vuelto más evidentes que nunca Los procesos comunicativos ya no se limitan a la transmisión de información ahora son escenarios de lucha simbólica donde se definen significados se construyen identidades y se legitiman discursos En este contexto los medios de comunicación han experimentado una transformación acelerada El auge de las plataformas digitales ha reconfigurado los modelos de negocio de la prensa la relación entre los ciudadanos y la política y la forma en que las instituciones se comunican con la sociedad La crisis de los medios tradicionales no es solo económica sino también de credibilidad y adaptación a las nuevas narrativas que emergen en el ecosistema digital La inmediatez de las redes sociales la fragmentación de audiencias y la proliferación de discursos polarizados han generado un panorama donde la información y la desinformación coexisten en tensión constante En Medios y sociedad en transformación Desafíos y narrativas de poder se analizan los desafíos que enfrenta la comunicación en su papel de mediadora entre el poder y la ciudadanía La relación entre medios y política es uno de los ejes fundamentales del debate contemporáneo Desde la comunicación de crisis hasta la propaganda electoral las estrategias discursivas buscan modelar la opinión pública y condicionar la toma de decisiones colectivas Las redes sociales han intensificado este fenómeno convirtiéndose en espacios de movilización pero también de manipulación y confrontación La política del siglo XXI se juega tanto en las urnas como en los algoritmos que determinan qué mensajes llegan a los ciudadanos y cuáles quedan relegados en la invisibilidad digital

A Political History of Reunifying Europe Iordan Gheorghe Bărbulescu, 2025-01-24 The proposed volume delves into the European Union's expansion into Central and Eastern Europe after the fall of the Berlin Wall It emphasizes the candidate states perspective and seeks to draw parallels between the 1990s expansion and potential future enlargements The historical context is vital particularly the democratization and consolidation effects that past expansions had on both the candidate states and the EU as a whole The work also discusses the recently established European Political Community and its role in creating a unified European political space It contends that past expansions were win win scenarios benefiting both the EU and the candidate states and suggests that similar mutual gains can be achieved in the EU's potential enlargement into the Western Balkans and Eastern Europe The author proposes that analyzing past expansion processes offers valuable insights and concrete strategies for future extensions This may include concepts like pre accession and the European Political Community The current geopolitical climate with a more assertive Russia underscores the importance of further EU expansion to enhance Europe's stability and security Overall the book
