Olson, CarrieLynn D. Reinhard, 2020-05-29 Reaching back to the beginnings of television The Greatest Cult Television Shows offers readers a fun and accessible look at the 100 most significant cult television series of all time compiled in a single resource that includes valuable information on the shows and their creators While they generally lack mainstream appeal cult television shows develop devout followings over time and exert some sort of impact on a given community society culture or even media industry Cult television shows have been around since at least the 1960s with Star Trek perhaps the most famous of that era However the rise of cable contributed to the rise of cult television throughout the 1980s and 1990s and now with the plethora of streaming options available more shows can be added to this categorization Reaching back to the beginnings of television the book includes such groundbreaking series as

The Twilight Zone and The Prisoner alongside more contemporary examples like Crazy Ex Girlfriend and Hannibal The authors provide production history for each series and discuss their relevance to global pop culture To provide a more global approach to the topic the authors also consider several non American cult TV series including British Canadian and Japanese shows Thus Monty Python s Flying Circus appears alongside Sailor Moon and Degrassi Junior High Additionally to move beyond the conception of cult as a primarily white heteronormative fanboy obsession the book contains shows that speak to a variety of cult audiences and experiences such as Queer as Folk and Charmed With detailed arguments for why these shows deserve to be considered the greatest of all time Olson and Reinhard provide ideas for discussion and debate on cult television Each entry in this book demonstrates the importance of the 100 shows chosen for inclusion and highlights how they offer insight into the period and the cults that formed around them

Critic and Literary World Jeannette Leonard Gilder, Joseph Benson Gilder, 1898

Ogden, 2013-03-25 The Analyst s Ear and the Critic s Eye is the first volume of literary criticism to be co authored by a practicing psychoanalyst and a literary critic The result of this unique collaboration is a lively conversation that not only demonstrates what is most fundamental to each discipline but creates a joint perspective on reading literature that ne

The Theory of Criticism Murray Krieger, 2019-12-01 Originally published in 1976 Representing years of critical reflection The Theory of Criticism attempts to construct a poetics of presence Within a wide range of critical terminology Murray Krieger has sought to create a new vision In language that is passionate and often dramatic he looks at the multidimensionality of the poetic world through the lens of Western poetics His work clearly addresses itself to post New Critical questions how to preserve the literary object as a thing to be perceived valued and enjoyed and yet to account for its presence in and interaction with our culture as a whole always in danger of being dissolved into man s language making and forming activity in general Our awareness of the poem as object must be modified by our awareness that it is an intentional object Krieger develops his balanced vision in three parts Part 1 defines the problem and defends the very activity of theorizing both in its own terms and in terms of the critic s function throughout the history of Western criticism By asking at the outset whether criticism is vain or valuable Krieger already confronts the basic tension between system and world and the need to account for both By creating a heuristic system that examines the possibility of form the critic serves also the world of history and thought as a whole Part 2 pursues that history from the classical encounter with mimesis in Greek thought to the Romantic and post Romantic elevation of consciousness as a main criterion of poetic art Defining a humanistic aesthetic as it has been viewed since Aristotle the author shows how during and after the eighteenth century form was opened up under the impact of a Kantian and post Kantian view epitomized finally by Coleridge s imagination and its consequences for recent theorists Part 3 deals with the image of the world struggling against its enclosure within a poetic context It expands our view of metaphor as a reflection of the dual nature of poetic language simultaneously locked into the

poem and referring to history and nature outside Our reading of the poem Krieger concludes must be double we must see the poem as a linear and chronological sequence reflecting real life and we must read it as a circular imitative mutually implicative mode The Personal Element in Literary Criticism Sam Francis Batdorf,1917 **A Study of William Shenstone and of His Critics** Alice Isabel Hazeltine,1918 *The Menorah Journal* ,1927 *Scribner's Magazine ...* ,1921 **Scribner's Magazine** Edward Livermore Burlingame,Robert Bridges,Alfred Sheppard Dashiell,Harlan Logan,1921 **History** ,1920 *American Architect and Building News* ,1876 *The Atlantic Monthly* ,1899 **New Catholic World** ,1880 The Theatre ,1890 Vol for 1888 includes dramatic directory for Feb Dec vol for 1889 includes dramatic directory for Jan May Hand-book to the Hull and Withernsea railway Thomas Tindall Wildridge,1884 The Book Buyer ,1895
