Critical Companion To Beowulf:

A Critical Companion to Beowulf Andy Orchard, 2003 This is a complete guide to the text and context of the most famous Old English poem In this book the specific roles of selected individual characters both major and minor are assessed A Critical Companion to Beowulf Andy Orchard, 2003 A Critical Companion To 'Beowulf' Andy Orchard, 2004-03 Beowulf is the best known and most closely studied literary work surviving from Anglo Saxon England and the modern reader is faced with a bewildering number and variety of interpretations about such basic matters as the date provenance and significance of the poem A Critical Companion to Beowulf addresses these and other issues reviewing and synthesising previous scholarship as well as offering fresh perspectives After an initial introduction to the poem attention is focused on such matters as the manuscript context and approaches to dating the poem before a lengthy discussion of the particular style diction and structure of this most idiosyncratic of Old English texts The background to the poem is considered not simply with respect to historical and legendary material but also in the context of myth and fable The specific roles of selected individual characters both major and minor are assessed and in a chapter on the degree of piety and Latin derived erudition implied by the text consideration is given to the original intended audience and perceived purpose of the poem A final chapter describes the range of critical approaches which have been applied to the poem in the past and points towards directions for future study ANDY ORCHARD is Rawlinson and Bosworth Professor of Anglo Saxon University of Oxford Representing Beasts in Early Medieval England and Scandinavia Michael D. J. Bintley, Thomas J. T. Williams, 2015 Essays on the depiction of animals birds and insects in early medieval material culture from texts to carvings to the landscape itself For people in the early Middle Ages the earth air water and ether teemed with other beings Some of these were sentient creatures that swam flew slithered or stalked through the same environments inhabited by their human contemporaries Others were objects that a modern beholder would be unlikely to think of as living things but could yet be considered to possess a vitality that rendered them potent Still others were things half glimpsed on a dark night or seen only in the mind's eye strange beasts that haunted dreams and visions or inhabited exotic lands beyond the compass of everyday knowledge This book discusses the various ways in which the early English and Scandinavians thought about and represented these other inhabitants of their world and considers the multi faceted nature of the relationship between people and beasts Drawing on the evidence of material culture art language literature place names and landscapes the studies presented here reveal a world where the boundaries between humans animals monsters and objects were blurred and often permeable and where to represent the bestial could be to hold a mirror to the self Michael D J Bintley is Senior Lecturer in Medieval Literature at Canterbury Christ Church University Thomas J T Williams is a doctoral researcher at UCL's Institute of Archaeology Contributors No 1 Adams John Baker Michael D J Bintley Sue Brunning L szl S ndor Chardonnens Della Hooke Eric Lacey Richard North Marijane Osborn Victoria Symons Thomas J Williams **Beowulf** Jodi-Anne George, 2009-12-09 Of unknown authorship Beowulf is an Old English epic poem

The Oxford History of Life-Writing: Volume 1. The Middle Ages Karen A. Winstead,2018-04-05 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing from late Antiquity to the threshold of the Renaissance During the Middle Ages writers from Bede to Chaucer were thinking about life and experimenting with ways to translate lives their own and others into literature Their subjects included career religious saints celebrities visionaries pilgrims princes philosophers poets and even a few ordinary people They relay life stories not only in chronological narratives but also in debates dialogues visions and letters Many medieval biographers relied on the reader s trust in their authority but some espoused standards of evidence that seem distinctly modern drawing on reliable written sources interviewing eyewitnesses and cross checking their facts wherever possible Others still professed allegiance to evidence but nonetheless freely embellished and invented not only events and dialogue but the sources to support them The first book devoted to life writing in medieval England The Oxford History of Life Writing Volume 1 The Middle Ages covers major life stories in Old and Middle English Latin and French along with such Continental classics as the letters of Abelard and Heloise and the autobiographical Vision of Christine de Pizan In addition to the life stories of historical figures it treats accounts of fictional heroes from Beowulf to King Arthur to Queen Katherine of Alexandria which show medieval authors experimenting with adapting and expanding the conventions of life writing Though Medieval life writings can be challenging to read we encounter in them the antecedents of many of our own diverse biographical forms tabloid lives literary lives brief lives revisionist lives lives of political figures memoirs fictional lives and psychologically oriented accounts that register the inner lives of their subjects **Old English Literature** John D. Niles,2016-02-18 This review of the critical reception of Old

English literature from 1900 to the present moves beyond a focus on individual literary texts so as to survey the different schools methods and assumptions that have shaped the discipline Examines the notable works and authors from the period including Beowulf the Venerable Bede heroic poems and devotional literature Reinforces key perspectives with excerpts from ten critical studies Addresses questions of medieval literacy textuality and orality as well as style gender genre and theme Embraces the interdisciplinary nature of the field with reference to historical studies religious studies anthropology art history and more

Critical Condition Patrick Finn,2015-06-18 Should we stop teaching critical thinking Meant as a prompt to further discussion Critical Condition questions the assumption that every student should be turned into a critical thinker The book starts with the pre Socratics and the impact that Socrates death had on his student Plato and traces the increasingly violent use of critical attack on a perceived opponent From the Roman militarization of debate to the medieval Church s use of defence as a means of forcing confession and submission the early phases of critical thinking were bound up in a type of attack that Finn suggests does not best serve intellectual inquiry Recent developments have seen critical thinking become an ideology rather than a critical practice with levels of debate devolving to the point where most debate becomes ad hominem Far from arguing that we abandon critical inquiry the author suggests that we emphasize a more open loving system of engagement that is not only less inherently violent but also more robust when dealing with vastly more complex networks of information This book challenges long held beliefs about the benefits of critical thinking which is shown to be far too linear to deal with the twenty first century world Critical Condition is a call to action unlike any other

Of Remembrance the Key Uwe Böker,Dieter A. Berger,Noel Harold Kaylor,2004 The papers in this book examine the thematic structural and aesthetic relationship between medieval English literature and a wide variety of more recent modern texts Some of the contributors re examine the concepts of authority and representation in Chr tien and Malory and of medieval romance and the modern novel while Caxton s Morte Darthur is interpreted from the point of view of Norbert Elias other focuses of interest are the love death motif in nineteenth century novels the comic in contemporary British fiction the literary representations of Arthurian characters Galahad Tristan Gawain and recent Beowulf translations In addition there are socio historic and generic readings of Chaucer s Sir Thopas and of Troilus and Criseyde of Ipomadon and Malory s Morte Darthur Aspects of medieval heritage are uncovered in Horace Walpole F rst P ckler Muskau Georg Kaiser A S Byatt David Lodge Fay Weldon Iris Murdoch the Irish novelist Eamonn Sweeney and the Polish writer Andrzej Sapkowski in William Gibson s cyberpunk novel Neuromancer and Peter Ackroyd s recent Clerkenwell Tales In addition there is a translation of Karl Heinz G ller s former essay on Chaucer s Troilus and Criseyde

Cause and Effect in Beowulf Martin Puhvel,2005-09-28 Traces the mental processes governing the

characters in the dramatic poem Beowulf This book focuses on the driving forces underlying the characters actions words and attitudes with special attention paid to Beowulf s zealous pursuit of heroic glory **JEGP, Journal of English and Germanic Philology** Gustaf E. Karsten,2007 **Performing the Middle Ages from 'Beowulf' to 'Othello'** Andrew James Johnston,2008 This text traces the dialogic nature of the relationship between the Middle Ages and modernity Arguing that modern beliefs in the alterity of the Middle Ages stem from the Middle Ages own processes of self representation the author explores varieties of nostalgia through a wide selection of texts **Methods and the Medievalist** Marko Lamberg,2008 The field of medieval studies has shifted towards a growing degree of inter and multidisciplinary during the recent decades The concept of medieval studies covers in fact a multitude of disciplines some of them being loyal to their long established traditions whereas others are very new and borrow methods from other branches of the humanities or even from modern natural or social sciences Since this means not only new possibilities but also new challenges sources and methodology should obviously concern anyone engaged in the history and culture of the Middle Ages Regardless of what aspects of the medieval world a scholar is dealing with his or her study has much to gain from a source pluralistic approach in order to be able to understand and even combine different types of sources a scholar must be aware of what methods are relevant and available and how they can be adapted and applied This collection of essays presents a comprehensive overview of current and fresh approaches to the history of medieval Europe The topics include among other things the complex relationship between the spoken and the written word explorations in social and geographic space layers and mental images perceivable in medieval texts source edition techniques relics as visual and tangible items not to mention the possibilities offered by prosopography zooarchaeology and the natural sciences Also the question and significance of ethics an ever more important issue in present day academic circles is discussed The contributors to this volume themselves form a very inter and multidisciplinary team although they can all be labeled as medievalists they in fact they work within different disciplines and in several different research units in different countries Geographically several parts of Europe are covered in the essays not only the westernmost part of the continent but also the poorly known eastern and northern parts as well This diversity makes the collection worthwhile reading for students and scholars alike *Old English Scholarship and Bibliography* Jonathan Wilcox,2004 **The Longman Anthology of British Literature** David Damrosch, Kevin J. H. Dettmar,2006 **Textual and Contextual Studies in Medieval English** Society of Historical English Language and Linguistics,2006 This collection of papers is a product of the first international conference of the Society of Historical English Language and Linguistics SHELL held at Chiba University Japan in September 2005 The society aims at the reunion of linguistics and philology The papers discuss current issues in the area of syntax semantics and stylistics **Viking and Medieval Scandinavia** Judy Quinn, Stefan Brink, John Hines,2006-10 The conception of the field is broad extending chronologically from the Viking Age and the sources of Viking activity to the end of the medieval period The multidisciplinary focus will be enhanced by a

newsletter section in future issues in which recent discoveries major publications and updates on long term projects will be reported **The Journal of Medieval Latin** ,2001
