Critical Encounters Between Philosophy And Politics:

Critical Encounters Fred Reinhard Dallmayr, 1989 *Critical Encounters* Fred R. Dallmayr, 1987 *Critical Encounters* a study of contemporary philosophy and political and social theory inserts itself into ongoing conversation at the junctures of philosophy and political thought and modernity and post modernism Through dialogue and critique Fred R Dallmayr seeks to find a viable path for political theory in the midst of contemporary discussions in philosophy and the social sciences shadowed by twentieth century phenomenology hermeneutics critical theory structuralism pragmatism and deconstruction

Arendt, Levinas and a Politics of Relationality Anya Topolski, 2015-05-21 Born in Eastern Europe educated in the West under the guidance of Martin Heidegger and the phenomenological tradition and forced to flee during the Holocaust because of their Jewish identity it should come as no surprise that Emmanuel Levinas and Hannah Arendt's ideas intersect in an important way This book demonstrates for the first time the significance of a dialogue between Levinas ethics of alterity and Arendt's politics of plurality Anya Topolski brings their respective projects into dialogue by means of the notion of relationality a concept inspired by the Judaic tradition that is prominent in both thinker's work The book explores questions relating to the relationship between ethics and politics the Judaic contribution to rethinking the meaning of the political after the Shoah and the role of relationality and responsibility for politics The result is an alternative conception of the political based on the ideas of plurality and alterity that aims to be relational inclusive and empowering **Critical Encounters**

Packey J Dee Professor Fred Dallmayr, 1987-07-31 **On the Boundary** Fred Dallmayr, 2017-08-29 The book records the author's personal and intellectual maturation over a period of nine decades This maturation was never purely self propelled but always occurred in response to teachings and experiences Situated as a being in the world the author's experiences reach from World War II via the Cold War to recent terror wars Intellectually he participated in and reacted to a number of major perspectives from phenomenology existentialism and critical theory to hermeneutics postmodernism and post secularism Exchanges with multiples interlocutors helped to shape his distinctive outlook or profile which privileges self other contacts over the ego dialogue over monologue and dialogical cosmopolitanism over chauvinistic power politics Implicit in this emerging profile is a preference for potentiality over actuality and of relationality over static identity Shunning doctrinal formulas or finished systems the author's life thus is shown to be simply a journey an adventure to what comes an itinerary mentis in Deum **Negotiating Postmodernism** Wayne Gabardi, 2001

Joining the modern postmodern debate this book suggests that the polarizing polemics of the radical postmodernists who once dominated the discussion have given way to a new critical postmodernism characterized by dialogue accommodation and synthesis A comprehensive survey *Negotiating Postmodernism* also marks the arrival of a powerful critical presence on the scene one that advances the idea of a late modern postmodern social and cultural transition Dilemmas in Liberal Democratic Thought Since Max Weber, 2nd. ed. Richard Wellen, 1996-05-31 *Dilemmas in Liberal Democratic Thought* since Max Weber establishes Max Weber's work as

a touchstone for surveying the theoretical dilemmas of the liberal democratic tradition Through a subtle examination of Weber's status as a political thinker we are invited to consider new interpretations of later figures such as MacIntyre Rorty Strauss and Habermas Perhaps the most important contribution is Wellen's account of the tacit alternatives liberal thought has discovered in its own foundation and practical implications **Jürgen Habermas: Law and politics (continued).**

Ethics David M. Rasmussen, James Swindal, 2002 *Critical theory and international relations* Stephen Hobden, 2023-02-28 Critical theory is one of the most important and exciting areas within the study of international relations Its purpose is not only to describe how the world operates but also to help us imagine how we might achieve a more equitable and sustainable way of life Presenting key concepts and thinkers notably Theodor Adorno and Michel Foucault this book provides an evaluation of the field and suggests how critical thinking can contribute to confronting the challenges of the twenty first century It argues that current critiques of critical theory in international relations can only be overcome if we engage with ideas from outside of the western tradition Habermas, Modernity, and Public Theology Don S. Browning, Francis Schüssler Fiorenza, 1992 Jürgen Habermas is by far the most preeminent and influential philosopher in Germany today The scope of his writings is remarkable Their influence extends over a wide range of disciplines that include philosophy social theory hermeneutics anthropology linguistics ethics educational theory and public policy The impact of Habermas's writings on theology alone reaches from fundamental to political theology from moral to practical theology The significance of Habermas's *Modernity and Public Theology* is twofold First it represents a genuine dialogue an actual conversation between Habermas and theologians While theologians have appealed to Habermas's work in innumerable articles and monographs he himself until now has remained silent This book then is unique insofar as it offers the true give and take of dialogue Second this book focuses on Habermas's most recent work especially his interpretation of modernity his theory of communicative action and his development of a discourse ethics In so doing it corrects some of the prevalent misreadings of Habermas within the theological literature devoted to him In examining the relation between critical theory and a public and practical theology the contributors note both the promise and limitations of Habermas's basic arguments and insights They challenge Habermas as much as they learn from him Sharing the conviction that religious traditions contain sources for interpreting human nature and society they argue that if Habermas would attend more to the role of religion within life and society he would more fully realize his project for a communicative rationality under the conditions of modernity and would offer a more comprehensive understanding of rationality society and modernity Taking his own turn at the end of the book Habermas responds to each of the contributors' comments on the broader theological reception of his work and offers his own fascinating views on the function and development of religion in modernity and on the status and claim to truth of theological discourse The work concludes with an extremely useful annotated bibliography covering Habermas's own writings general introductions to Habermas and to critical theory and works devoted to specific aspects of Habermas's thought Dialogue

of Civilizations Majid Tehranian, David W. Chappell, 2002-06-28 This innovative book brings together Hindu Buddhist Confucian Christian Islamic indigenous and secular humanist perspectives on their individual peace agendas offering concrete policy proposals to meet the challenges of the 21st century Contributors address major issues such as the nature of religious conflict non violent economies indigenous rights the principles of peace pedagogy and the dynamics of the US China Russia diplomacy triangle **Critical Theory: Theoretical foundations** David M. Rasmussen, James Swindal, 2004

Christian Hermeneutics James Fodor, 1995 Paul Ricoeur is one of the most influential philosophers alive today This book draws primarily on his hermeneutic insights to address the fundamental question of how reference truth and meaning are related in the discourse of theology Fodor defends the view that theological truth claims cannot be sustained without some appeal to the referential or in Ricoeur's terminology refigurative potential intrinsic to our linguistic practices By bringing the philosophical work of Ricoeur into mutually critical conversation with theology particularly that of Hans Frei the book underscores the importance of reference in assessing theological claims

Life-world and Politics Stephen K. White, 1989 Eight essays in honor of political philosopher Fred Dallmayr explore issues of subjectivity and intersubjectivity elucidating the implications of postmodernism and the phenomenological tradition for contemporary ethics and political theory The contributors include Dallmayr William E Connolly and Jean Bethke Elshtain Annotation copyrighted by Book News Inc Portland OR *The New World of Politics* Neal Riemer, Douglas W. Simon, 1991 **The Eastern Anthropologist**, 2007
