**The Critical Response to Kurt Vonnegut** Leonard Mustazza, 1994-10-26 From the time he left his job as a publicist for General Electric in 1950 to pursue a career as a writer Kurt Vonnegut has made an indelible mark on American literature During the first decade of his career his work appeared chiefly in paperback With the hardcover publication of *Cat's Cradle* in 1963 his writings received increasing attention with criticism of Vonnegut's work flourishing during the decades that followed This volume traces the critical response to his work Included in this book are reviews and critical essays on Vonnegut's writings from the roots of his career to the present day The critical pieces are arranged chronologically from a review of *Player Piano* to an article on *Hocus Pocus* The book systematically covers the critical response to every one of Vonnegut's novels The first part of the book covers Vonnegut's rise to critical success with the publication of *Slaughterhouse Five* in 1969 while the second part focuses on his later work from *Breakfast of Champions* 1970 through *Hocus Pocus* 1990 A selected bibliography concludes the work

**Kurt Vonnegut's "Slaughterhouse-Five" as Historiographic Metafiction** Markus Schneider, 2008-11-05 Seminar paper from the year 2008 in the subject American Studies Literature grade 2.3 University of Bamberg Professur f r Amerikanistik course American Historiographic Metafiction language English abstract The representation of history depends mainly on the perspective attitude and cultural background of the beholder which at the same time marks the major flaw of historiography One topic or event will never be identically described by two historians

even if they are given the very same materials and sources to work with As a consequence historiography can only try to create an image as true and original as possible but is never able to depict everything that happened as it actually was in its full scope So there were and always will be fictional elements and interpretations in the reports and writings about past events This assumption leads us to historiographic metafiction a style of writing that emerged during the postmodern era If there is fiction in scholarly historiography where is the difference between that and a novel that deals with history This term paper will try to give an answer to that question and examine features and characteristics of historiographic metafiction which eventually will be applied to Kurt Vonnegut s *Slaughterhouse Five* In postmodern literature and of course especially in historiographic metafiction authors tried to find new ways of telling stories and particularly representing history I will take a closer look at the narrative frame and especially the concept of time Vonnegut used in the novel But how is history represented in *Slaughterhouse Five* This will be the second part of the analysis that will attempt to find answers why Vonnegut wrote the novel the way he did The third part will deal with intertextual elements in the novel All citations from the novel and the pages indicated in brackets are taken from the edition cited below

**Reader's Guide to Literature in English** Mark Hawkins-Dady, 2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study

**At Millennium's End** Kevin Alexander Boon, 2001-03-22 Collected essays by noted scholars covering the breadth and influence of Kurt Vonnegut s literature

*The Cambridge Companion to American Novelists* Timothy Parrish, 2013 This volume provides newly commissioned essays from leading scholars and critics on the social and cultural history of the novel in America It explores the work of the most influential American novelists of the past 200 years including Melville Twain James Wharton Cather Faulkner Ellison Pynchon and Morrison

*Kurt VonNegut's Slaughterhouse-Five As Historiographic Metafiction* Markus Schneider, 2011-11 Seminar paper from the year 2008 in the subject American Studies Literature grade 2 3 University of Bamberg Professur f r Amerikanistik course American Historiographic Metafiction 10 entries in the bibliography language English abstract The representation of history depends mainly on the perspective attitude and cultural background of the beholder which at the same time marks the major flaw of historiography One topic or event will never be identically described by two historians even if they are given the very same materials and sources to work with As a consequence historiography can only try to create an image as true and original as possible but is never able to depict everything that happened as it actually was in its full scope So there were and always will be fictional elements and interpretations in the reports and writings about past events This assumption leads us to historiographic metafiction a style of writing that emerged during the postmodern era If there is fiction in scholarly historiography where is the difference between that and a novel that deals with history This term paper will try to give an

answer to that question and examine features and characteristics of historiographic metafiction which eventually will be applied to Kurt Vonnegut's *Slaughterhouse Five*. In postmodern literature and of course especially in historiographic metafiction authors tried to find new ways of telling stories and particularly representing history. I will take a closer look at the narrative frame and especially the concept of time Vonnegut used in the novel. But how is history represented in *Slaughterhouse Five*? This will be the second part of the analysis that will attempt to find answers why Vonnegut wrote the novel the way he did. The third part will deal with intertextual elements in the novel. All citations from the novel and the pages indicated in brackets are taken from the edition cited below.

**The Oxford Encyclopedia of American Literature** Jay Parini, 2004. The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present. At the core of the Encyclopedia lie 250 essays on poets, playwrights, essayists, and novelists. Figures such as Whitman, Melville, Faulkner, Frost, and Morrison are discussed in detail with each examined in the context of his or her times, an assessment of the writer's current reputation, a bibliography of major works, and a list of major critical and biographical works about the writer. Fifty entries on major works such as *Moby Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman*, and *Beloved* place the work in its historical context and offer a range of possibilities with regard to critical approach. The Encyclopedia also contains essays on literary movements, periods, and themes, pulling together a broad range of information and making connections between them. Each entry has its own primary and annotated secondary bibliography, and a system of cross references helps readers locate information with ease. The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature, libraries looking for one comprehensive source, and readers interested in American literature, its authors, and its connection with various areas of study.
