 treated the Old English poems about saints as individual autonomous works relating but little to one another except in a
 broadly generic way Bjork challenges the traditional view with an examination of the major structural feature that all the
 poems share direct discourse Syntactical and rhetorical analyses of the five poems reveal a consistent use of speech in
 creating stylistic norms or ideals stylistic icons in spiritually perfect figures In all the poems the speech of the saints in formal
 rhetorical and balanced the stylistic analogue both of their immutable fith and of the Christ saint figural connection The
 speech of all other characters is measured against this standard their ability or inability to meet the saintly ideal in language
