Criticism In The Making:

Introduction to Ethical Literary Criticism Nie Zhenzhao, 2023-09-15 The title is a thorough introduction to ethical literary criticism a critical methodology designed to interpret literature from the perspective of ethics including a whole set of concepts theories and working mechanisms Drawing on ideas from both Western ethical criticism and the Chinese tradition of moral criticism ethical literary criticism contrasts with the former in its occasional lack of a theoretical foundation and applicable methodologies and the latter that tends to make subjective moral judgments Its most groundbreaking argument is that while natural selection answers how humans are different from animals physically ethical selection endows human beings with reason and ethical consciousness The ethical nature and edifying function of literature is therefore asserted seeking to unfold in the literary text the ethical choices of human beings as a way to complete ethical selection in society within historical context The arguments and theoretical toolbox inject a unique ethical dimension into literary criticism and help understand anew the ethical and social potency of literature The theoretical elucidation exemplary textual analyses and a supplement of key terminologies and ancillary materials make this book an essential guide for students and general readers interested in ethical literary criticism and scholars of literary criticism ethical criticism and literary theory

The Tagore-Gandhi Debate on Matters of Truth and Untruth Bindu Puri, 2014-11-25 Between 1915 and 1941 Tagore 1861 1941 and Gandhi 1869 1948 differed and argued about many things of personal national and international significance satyagraha non cooperation the boycott and burning of foreign cloth the efficacy of fasting as a means of resistance and Gandhi s mantra connecting swaraj and charkha The author tracks the development of this dialogue and argues that the debate was about more fundamental issues such as the nature of truth and swaraj freedom and the possibilities of untruth that Tagore saw in Gandhi s movements for truth and freedom Puri shows that the differences between the two men s perspectives came from differently negotiated relationships to and understandings of tradition and modernity Tagore was part of the Bengal renaissance and powerfully influenced by the idea that the Enlightenment consisted in the freedom of the individual to reason for herself Gandhi on the other hand remained close to the Indian philosophical tradition which linked individual freedom to moral progress Puri points out that Tagore cannot however be unreflectively assimilated to the Enlightenment project of Western modernity for he came fairly close to Gandhi in rejecting the anthropocentrism of modernity and shared Gandhi s belief in an enchanted cosmos The only single authored volume on the Tagore Gandhi debate this book is a welcome addition to the existing literature
