Twentieth Century Criticism William J. Handy, Max Westbrook, 1974 Criticism , 1984 **The Epic in Film** Constantine Santas, 2008 Constantine Santas encourages us to wonder why film critics have so routinely dismissed the epic film In *The Epic in Film* he argues that blockbuster and artistic are not mutually exclusive terms and perhaps more importantly epic film is an inherently profound genre in its ability to tap into a nation's and sometimes humanity's dreams and fears Why do we see dozens and dozens of films based on the King Arthur legend Why would a presidential hopeful borrow a phrase Read my lips from Clint Eastwood's *Dirty Harry* Why do war epics proliferate in times of war or national crisis Why are epics as a whole the most popular movie genre Start with an individual quest of some kind undertaken by an attractive hero or heroine add the weight of a nation and perhaps humanity into that character's struggle sprinkle some awe inspiring special effects and a general sense of largesse and don't forget the happy ending and there you have a recipe for a film that can contain the deepest emotions fear hope insecurity pride of a nation and sometimes a world Whether you love *Gone with the Wind* and hate *Troy* find Akira Kurosawa's films brilliant or marvel over the depth of the *Matrix* trilogy film buffs will want to read this first book length treatment of the epic a wildly popular infinitely fascinating and critically underappreciated genre Howard Weinbrot and the Precincts of Enlightenment Kevin L. Cope, 2024-05-07 Seeking to honor and extend the critical legacy of Howard Weinbrot this volume re-examines rebuilds and upgrades the most prominent pillars of long eighteenth century scholarship The collection is divided into four thematic sections beginning with a series of chapters offering fresh analyses of Swift Dryden Hogarth and other major authors and artists of the period In the sections that follow the contributors not only explore biographies of both highly esteemed figures and notorious deviants but also investigate the very concept of Enlightenment as it has evolved from the eighteenth century to today The final section features chapters that probe the complex interaction of identity persona and place traversing the countless locales in which the British and the international eighteenth century emerged The volume ultimately covers a range of experience that extends from the gallows to the landscape garden and from heroic antiquity to Romantic era France Juxtaposing the local and particular against the grand and universal *Howard Weinbrot and the Precincts of Enlightenment* testifies to the complexity and ongoing significance of eighteenth century culture **Beyond the Corporate University** Henry A. Giroux, Kostas Myrsiades, 2001 Prominent scholars in this book move boldly beyond critique to show how and why the critical functions of a democratically informed civic education not merely professional training must become the core of the university's mission They show why higher education must address what it means to relate knowledge to public life and social responsibility to the demands of critical citizenship Moreover they show why democratic forms of education and various elements of a critical

pedagogy are vital not only to individual students but also to our economy and our democratic institutions and future leadership Visit our website for sample chapters **Twentieth century criticism : the major statements** William J. Handy, The Epic Films of David Lean Constantine Santas,2011-09-22 Widely regarded as one of cinema s most accomplished directors David Lean helmed such classics as Brief Encounter Great Expectations and Oliver Twist He twice received the Academy Award for best director and two of his films The Bridge on the River Kwai and Lawrence of Arabia won the Oscar for best picture Both are featured on the American Film Institute s Top 100 with Lawrence of Arabia at number seven Despite the awards and accolades for these motion pictures many critics often look more favorably upon the smaller films that Lean produced earlier in his career and in recent years his reputation as a director has diminished In this study Constantine Santas seeks to restore these now undervalued epics to the elevated esteem they once held Without dismissing the earlier works or regarding them as irrelevant to Lean s evolution as an artist this book shows that the epics if analyzed from certain vantage points are as worthy as any of Lean s previous films In addition to Lean s Academy Award winning blockbusters Santas also provides close analytical looks at Doctor Zhivago Ryan s Daughter and the director s final film A Passage to India Santas argues that the epics show a progression and refinement of Lean s work and that they are thematically broader and feature more complex characterization than his earlier films In his analyses Santas provides background material on the production of each epic insights into structure characters techniques and themes and a look into the relationship between the films and their literary sources Written in a clear and engaging manner The Epic Films of David Lean will appeal not only to cinema students and scholars but also to the general fan of David Lean and his work
