## **Critique Action And Liberation:**

Critique, Action, and Liberation James L. Marsh, 1994-12-05 Critique Action and Liberation is an original work in critical social theory that develops an approach to and method for social and political science Drawing on the work of Habermas Marcuse Adorno Offe Marx and David Harvey Marsh develops an ethics and a social phenomenology of the self as communicative subject He then advances an interpretation and critique of modernity late capitalism and state socialism

*From Communicative Action to the Face of the Other* Steve Hendley, 2000-01-01 Although the continental philosophers JYrgen Habermas and Emmanuel Levinas are both inescapably important to an array of debates in contemporary moral theory they are rarely assessed in relation to each other Not only are their basic agendas different whereas Habermas s discourse ethics are framed within a general concern for democratic political theory Levinas s work is largely indifferent if not hostile to political concerns but their philosophical styles dramatically contrast as well Steven Hendley s study is based on the conviction that beneath the surface there is in fact a remarkable degree of convergence in the two philosophers work that is usually overlooked Hendley discovers and explains the complementarity of Levinas s conception of discourse as relation to the Other to Habermas s theory of communication as the basis for recognition of universal moral norms and he presents a clear defense and validation of Levinas s position on the construction of political theory From Communicative Action to the Face of the Other is a unique endeavor that achieves new and important connections in the contemporary scholarship in philosophy and political theory

Indian Philosophy and the Consequences of Knowledge Professor Chakravarthi Ram-Prasad, 2013-05-28 This book presents a collection of essays setting out both the special concern of classical Indian thought and some of its potential contributions to global philosophy It presents a number of key arguments made by different schools about this special concern the way in which attainment of knowledge of reality transforms human nature in a fundamentally liberating way It also looks in detail at two areas in contemporary global philosophy the ethics of difference and the metaphysics of consciousness where this classical Indian commitment to the spiritually transformative power of knowledge can lead to critical insights even for those who do not share its presuppositions Close reading of technical Indian texts is combined with wide ranging and often comparative analysis of philosophical issues to derive original arguments from the Indian material through an analytic method that is seldom mastered by philosophers of non western traditions

**Jürgen Habermas** Martin Beck Matušík,Martin Joseph Matušík,2001 This philosophical political profile offers the first of its kind intellectual reconstruction of Habermas s defining existential and historical situations his generational profile and interventions his impact on as well as the discontents that his life work generates in others Written as a lively dramatic engagement with major themes of Habermas s adult life in postwar Germany the entire study occupies a unique place between the standard genres of a biography and a theoretical commentary on the oeuvre In this work the reader is taken on a journey with Habermas through the 20th century intellectual and political history from the defeat of Nazism to the Cold War restoration of the 50s the student movement of the 60s the historical revisions of the 70s and 80s the hope of the post Wall era after 1989 all the way to the controversies surrounding the allied wars of intervention against Iraq and Serbia in the 1990s Both beginning and advanced readers of 20th century socio political thought gain greater insight into the existential political and philosophical influences that proved to be formative of Habermas s writing and activism in the public sphere The first part of the study emphasizes the unfolding linear view of Habermas s postwar history punctuated by the major existential and political situations of his young adult life from 1945 to 2000 The second part returns to the same time span in order to

reconstruct Habermas's mature post-Wall intellectual profile in contrast to the profiles of the preceding generation of 1945 and the later protesting generation of 1968. The third part examines the tremendous Habermas effect exercised on 20th century thought and public policy. The concluding chapters discuss critically the lasting place as well as the limits of Habermas's achievement in contribution to a development of new critical theory. The book is enhanced by an introduction that provides a historical and conceptual background to the major themes discussed. Twelve helpful thematic tables.

**Hearing Vocation Differently** David S. Cunningham, 2019. **Patterns of Action** David Chidester, 1987      **Under Construction** Christine Farris, Chris M. Anson, 1998-11. Few composition scholars two decades ago would have imagined the rate at which their field is now developing, expanding beyond its boundaries, creating new alliances and locating new sites for research and generation of knowledge. In their introduction to this volume, Farris and Anson argue that faced with a welter of competing models, compositionists too quickly dichotomize and dismiss. The contributors to *Under Construction* therefore address themselves to the need for commerce among competing visions of the field. They represent diverse settings and distinct points of view, but their overriding interest is in promoting a view of the field that values interaction and mutual development above dogmatics and isolation.      **Religious Leaders, Religious Groups and Politics in Puerto Rico** Hector M.
