Abromeit,W. Mark Cobb,2014-06-03 The Legacy of Herbert Marcuse A Critical Reader is a collection of brand new papers by seventeen Marcuse scholars which provides a comprehensive reassessment of the relevance of Marcuse s critical theory at the beginning of the 21st century Although best known for his reputation in critical theory Herbert Marcuse s work has had impact on areas as diverse as politics technology aesthetics psychoanalysis and ecology This collection addresses the contemporary relevance of Marcuse s work in this broad variety of fields and from an international perspective In Part One veteran scholars of Marcuse and the Frankfurt school examine the legacy of various specific areas of Marcuse s thought including the quest for radical subjectivity the maternal ethic and the negative dialectics of imagination Part Two focuses on a very new trend in Marcuse scholarship the link between Marcuse s ideas and environmental thought The third part of this collection is dedicated to the work of younger Marcuse scholars with the aim of documenting Marcuse s reception among the next generation of critical theorists The final section of the book contains recollections on Marcuse s person rather than his critical theory including an informative look back over his life by his son Peter

On Marcuse Douglas Kellner,Tyson E. Lewis,Clayton Pierce,2008-01-01 Herbert Marcuse was one of the most important and renowned philosophers of the 20th century His thought and his involvement in global student movements played a decisive role in transforming the political landscape of the 60 s and 70 s in the United States For many he is remembered as the father of the so called New Left a figure who represented theoretical clarity through the fog of war counterrevolution and the repression of freedom in advanced industrial society Yet how did such an influential and powerful thinker interpret the role of education during the turbulent period in which he lived On Marcuse Critique Liberation and Reschooling in the Radical Pedagogy of Herbert Marcuse seeks to offer ground breaking answers to this question Despite his well known relationship with radical student activism very little has been written on Marcuse s educational philosophy or its connection with his larger critical theory Drawing on never before published archival materials including lectures dating from 1968 1975 this volume presents a definitive overview of Marcuse s educational legacy and its relevance for the contemporary moment On Marcuse systematically lays out how Marcuse continues to be an important theorist for understanding themes such as educational standardization critical and dialectical thought democratic schooling and the distinction between schooling for social needs and schooling for liberation and health By situating Marcuse s dialectical analysis of the progressive and conservative trends in schooling within an overall critique of one dimensional society this volume demonstrates the importance of the theme of education for Marcuse s overall critical theory and political project Critical theorists of education Marcuse scholars educators and students will be struck by the unmistakable accuracy of Marcuse s diagnosis of education in one dimensional society and his challenges for a democratic reconstruction of education Hence On Marcuse provides us with not only timely

theoretical tools and concrete pedagogical strategies for combating educational sickness caused by one dimensional society but also hope in the revolutionary potentials of reschooling

Marcuse in the Twenty-First Century Robert Kirsch, Sarah Surak, 2018-12-07 This book engages the critical theory of political philosopher Herbert Marcuse to imagine spaces of resistance and liberation from the repressive forces of late capitalism Marcuse an influential counterculture voice in the 1960s highlighted the smooth democratic unfreedom of postwar capitalism a critique that is well adapted to the current context The compilation begins with a previously unpublished lecture delivered by Marcuse in 1966 addressing the inadequacy of philosophy in its current form arguing how it may be a force for liberation and social change This lecture provides a theoretical mandate for the volume s original contributions from international scholars engaging how topics such as higher education aesthetics and political organization can contribute to the project of building a critical rationality for a qualitatively better world offering an alternative to the bleak landscape of neoliberalism The essays in this volume as whole engage the current context with an urgency appropriate to the problems facing an encroaching authoritarianism in political society with an interdisciplinary lens that speaks to the complexity of the problems facing modern society The chapters originally published as a special issue in *New Political Science*

Marcuse's Challenge to Education Douglas Kellner, Tyson Lewis, Clayton Pierce, Daniel K. Cho, 2009-01-16 Marcuse s Challenge to Education a collection of unpublished lecture notes by the thinker himself as well as essays by scholars who have explicated his theories examines Herbert Marcuse s ground breaking critique of education as well as his own pedagogical alternatives Edited by Douglas Kellner this compilation provides an overview of the various themes of Marcuse s challenges to traditional education and connections with ideas of other radical thinkers ranging from Bloch and Freire to Freud and Lacan

The Aesthetic Dimension Herbert Marcuse, 1979-06-15 Developing a concept briefly introduced in *Counterrevolution and Revolt* Marcuse here addresses the shortcomings of Marxist aesthetic theory and explores a dialectical aesthetic in which art functions as the conscience of society Marcuse argues that art is the only form or expression that can take up where religion and philosophy fail and contends that aesthetics offers the last refuge for two dimensional criticism in a one dimensional society

The Philosophy of Herbert Marcuse Harold Bleich, 1977

Marcuse Robert Pippin, Andrew Feenberg, Charles P. Webel, 1988 Distinguished scholars Jurgen Habermas Claus Offe Douglas Kellner and Martin Jay among others draw upon historical theoretical and biographical information to assess Marcuse s philosophy from its grounding in classical German idealism through the break with Heidegger to his role in the American counterculture of the sixties and seventies Indispensable for anyone interested in an in depth understanding of one of the most burning issues of our time the relation of critical theory to social action

Herbert Marcuse and the Crisis of Marxism Douglas Kellner, 1984 Critical overview of the entirety of Marcuse s work and discusses his enduring importance Kellner had extensive interviews with Marcuse and provides hitherto unknown information about his road to Marxism his relations with Heidegger and Existentialism his involvement with the Frankfurt

School and his reasons for appropriating Freud in the 1950s In addition Kellner provides a novel interpretation of the genesis and structure of Marcuse's theory of one dimensional society of the development of his political theory and of the role of aesthetics in his critical theory [The Ruthless Critique of Everything Existing](#) Andrew Feenberg,2023-02-28 How Marcuse helps us understand the ecological crisis of the 21st century For several years after 1968 Herbert Marcuse was one of the most famous philosophers in the world He became the face of Frankfurt School Critical Theory for a generation in turmoil His fame rested on two remarkable books *Eros and Civilization* and *One Dimensional Man* These two books represent the utopian hopes and dystopian fears of the time In the 1960s and 70s young people seeking a theoretical basis for their revolution found it in his work Marcuse not only supported their struggles against imperialism and race and gender discrimination he foresaw the far reaching implications of the destruction of the natural environment Marcuse's Marxism was influenced by Husserl and Heidegger Hegel and Freud These eclectic sources grounded an original critique of advanced capitalism focused on the social construction of subjectivity and technology Marcuse contrasted the one dimensionality of conformist experience with the new sensibility of the New Left The movement challenged a society that delivered the goods but devastated the planet with its destructive science and technology A socialist revolution would fail if it did not transform these instruments into means of liberation both of nature and human beings This aspiration is alive today in the radical struggle over climate change Marcuse offers theoretical resources for understanding that struggle [A Study on Authority](#) Herbert Marcuse,2020-05-05 This is the first paperback edition of what is now recognized as Marcuse's most important collection of writings on philosophy He analyzes and attacks some of the main intellectual currents of European thoughts from the Reformation to the Cold War In a survey that includes Luther Calvin Kant Burke Hegel and Bergson he shows how certain concepts of authority and liberty are constant elements in their very different systems The book also contains Marcuse's famous response to Karl Popper's *Poverty of Historicism* and his critique of Sartre [Towards a Critical Theory of Society](#) Herbert Marcuse,2013-04-08 This second volume of Marcuse's collected papers includes unpublished manuscripts from the late 1960s and early 1970s such as *Beyond One Dimensional Man* *Cultural Revolution* and *The Historical Fate of Bourgeois Democracy* as well as a rich collection of letters It shows Marcuse at his most radical focusing on his critical theory of contemporary society his analyses of technology capitalism the fate of the individual and prospects for social change in contemporary society **Crisis and Commonwealth** Charles Reitz,2013-08-29 *Crisis and Commonwealth* Marcuse Marx McLaren advances Marcuse scholarship by presenting four hitherto untranslated and unpublished manuscripts by Herbert Marcuse from the Frankfurt University Archive on themes of economic value theory socialism and humanism Contributors to this edited collection notably Peter Marcuse Henry Giroux Peter McLaren Zvi Tauber Arnold L Farr and editor Charles Reitz are deeply engaged with the foundational theories of Marcuse and Marx with regard to a future of freedom equality and justice Douglas Dowd furnishes the critical historical context with regard to U S foreign and

domestic policy particularly its features of economic imperialism and militarism Reitz draws these elements together to show that the writings by Herbert Marcuse and these formidable authors can ably assist a global movement toward intercultural commonwealth The collection extends the critical theories of Marcuse and Marx to an analysis of the intensifying inequalities symptomatic of our current economic distress It presents a collection of essays by radical scholars working in the public interest to develop a critical analysis of recent global economic dislocations Reitz presents a new foundation for emancipatory practice a labor theory of ethics and commonwealth and the collection breaks new ground by constructing a critical theory of wealth and work A central focus is building a new critical vision for labor including academic labor Lessons are drawn to inform transformative political action as well as the practice of a critical multicultural pedagogy supporting a new manifesto for radical educators contributed by Peter McLaren The collection is intended especially to appeal to contemporary interests of college students and teachers in several interrelated social science disciplines sociology social problems economics ethics business ethics labor education history political philosophy multicultural education and critical pedagogy

Eros and Revolution Javier Sethness Castro, 2016-06-10 In *Eros and Revolution* Javier Sethness Castro presents a comprehensive intellectual and political biography of the world renowned critical theorist Herbert Marcuse 1898 1979 Investigating the origins and development of Marcuse's dialectical approach vis vis Hegel Marx Fourier Heidegger and Freud as well as the central figures of the Frankfurt School Horkheimer Adorno Neumann Fromm and Benjamin Sethness Castro chronicles the radical philosopher's lifelong activism in favor of anti capitalism anti fascism and anti authoritarianism together with Marcuse's defiant revindication of global libertarian socialist revolution as the precondition for the realization of reason freedom and human happiness Beyond examining Marcuse's revolutionary life and contributions moreover the author contemplates the philosopher's relevance to contemporary struggle especially with regard to ecology feminism anarchism and the general cause of worldwide social transformation

Marcuse John Bokina, Timothy J. Lukes, 1994-04-29 Marcuse brings back to center stage one of the most celebrated and controversial philosophers of the turbulent 1960s the man Time magazine called the guru of the New Left In *Reason and Revolution Eros and Civilization One Dimensional Man* and other notable works Herbert Marcuse crystallized the essence of counterculture philosophy His neo Marxist critique of Western capitalism was widely embraced by revolutionaries hippies and an entire generation of academics who condemned political economic and sexual repression in American society So complete was Marcuse's identification with the New Left that with its demise he and his works fell out of favor But as this volume persuasively demonstrates Marcuse remains vitally relevant for us today Returning to Marcuse may recall the clash of idealistic exuberance and tragic violence associated with Woodstock Haight Ashbury the Vietnam War 1968 Democratic Convention Kent State and Earth Day as well as the passionate voices of anti war and civil rights protesters environmentalists feminists and free love advocates But this volume does not cater to the simplistic nostalgia of aging baby boomers Fifteen leading Marcuse scholars including Marcuse's son

Peter assess the philosopher's ideas in the radically different theoretical and political contexts of the 1990s. The range of topics covered is distinctly contemporary: Foucault and postmodern theories, analytical Marxism and the demise of the Soviet Union, women's studies and feminist psychoanalytic theory, aesthetic consciousness and postmodern art, radical ecology and cybernetic technology, and includes Douglas Kellner's revealing first look at the unpublished manuscripts in the Marcuse Archives in Frankfurt. Sure to excite liberal as well as irritate conservative culture warriors, these provocative essays illuminate the outlines of a Marcuse revival and the Next Left as both emerge to confront the complex challenges of our times.

Critical Theory and Democratic Vision Arnold L. Farr, 2009-01-01 While there are a number of books on Marcuse, *Critical Theory and Democratic Vision* is the first to examine the problem of democracy through Marcusean lenses. Marcuse is revived for the sake of helping us rethink what it takes to have a democratic society based on inclusion and equality.

The Imaginary Witness Morton Schoolman, 1980 *The Great Refusal* Andrew Lamas, Todd Wolfson, Peter N. Funke, 2017-01-23 Herbert Marcuse examined the subjective and material conditions of radical social change and developed the Great Refusal, a radical concept of the protest against that which is. The editors and contributors to the exciting new volume *The Great Refusal* provide an analysis of contemporary social movements around the world with particular reference to Marcuse's revolutionary concept. The book also engages and puts Marcuse in critical dialogue with major theorists including Slavoj Žižek and Michel Foucault among others. The chapters in this book analyze different elements and locations of the contemporary wave of struggle, drawing on the work and vision of Marcuse in order to reveal with a historical perspective the present moment of resistance. Essays seek to understand recent uprisings such as the Zapatistas in Mexico, the Arab Spring, and the Occupy movement in the context of Marcuse's powerful conceptual apparatus. *The Great Refusal* also charts contemporary social movements against global warming, mass incarceration, police brutality, white supremacy, militarization, technological development, and more, to provide insights that advance our understanding of resistance today. Contributors include Kevin B. Anderson, Stanley Aronowitz, Joan Braune, Jenny Chan, Angela Y. Davis, Arnold L. Farr, Andrew Feenberg, Michael Forman, Christian Fuchs, Stefan Gandler, Christian Garland, Toorjo Ghose, Imaculada Kangussu, George Katsiaficas, Douglas Kellner, Sarah Lynn Kleeb, Filip Kovacevic, Lauren Langman, Heather Love, Peter Marcuse, Martin J. Beck, Matu t k, Russell Rockwell, AK Thompson, Marcelo Vieta, and the editors.

Negations Herbert Marcuse, 1968 Herbert Marcuse's *Negations* is both a radical critique of capitalist modernity and a model of materialist dialectical thinking. In a series of essays originally written in the period stretching from the 1930s to the 1960s, Marcuse takes up the presupposed categories that have and continue to ground thought and action in our administered society: liberalism, industrialism, individualism, hedonism, aggression. This book is both a testament to a great thinker and a still vital strand of thought in the comprehension and critique of the modern organized world. It is essential reading for younger scholars and a radical reminder for those steeped in the tradition of a critical theory of society. With a brilliance of conception combined with an insistence on the material

conditions of thought and action this book speaks both to the particular contents engaged and to the fundamental grounds of any critique of organized modernity Goodreads
