## **Critiquing Free Speech:**

*Critiquing Free Speech* Matthew D. Bunker, 2001-04-01 In this exceptional volume Matthew D Bunker explores the work of contemporary free speech critics and argues that while at times these critics provide important lessons many of their conclusions must be rejected Moreover Bunker suggests that we be wary of interdisciplinary approaches to free speech theory that by their very assumptions and techniques are a poor fit with existing free speech theory and doctrine In his investigation of diverse critiques of free speech theory and his sophisticated rebuttal he provides an innovative and important examination of First Amendment theory In doing so he establishes a new agenda for First Amendment theory scholarship that incorporates some of the critics insights without abandoning the best aspects of the free speech tradition COPY FOR MAILER Distinctive features in this volume include an overview of the traditional approaches to First Amendment theory an examination of work from key First Amendment scholars and theorists at both the individual and group level an emphasis on interdisciplinarity ranging from feminist and critical legal scholars to economists and literary theorists and a new agenda for First Amendment theory scholarship which incorporates critical comment while preserving the best aspects of the free speech tradition

**Critiquing Free Speech** Matthew D. Bunker, 2001-04 This monograph addresses free speech arguing that while interdisciplinary approaches can be useful legal scholars must avoid distorting issues by using vocabularies and tools that do not reflect complexities of 1st Amendment

**Is Critique Secular?** Talal Asad, 2009-11 In this volume four leading thinkers of our times confront the paradoxes and dilemmas attending the supposed stand off between Islam and liberal democratic values Taking the controversial Danish cartoons of Mohammad as a point of departure Talal Asad Wendy Brown Judith Butler and Saba Mahmood inquire into the evaluative frameworks at stake in understanding the conflicts between blasphemy and free speech between religious taboos and freedoms of thought and expression and between secular and religious world views Is the language of the law an adequate mechanism for the adjudication of such conflicts What other modes of discourse are available for the navigation of such differences in multicultural and multi religious societies What is the role of critique in such an enterprise These are among the pressing questions this volume addresses

**Critique of Bored Reason** Dmitri Nikulin, 2022-02-08 Most of the core concepts of the Western philosophical tradition originate in antiquity Yet boredom is strikingly absent from classical thought In this philosophical study Dmitri Nikulin explores the concept's genealogy to argue that boredom is the mark of modernity Nikulin contends that boredom is a specifically modern phenomenon He provides a critical reconstruction of the concept of the modern subject as universal rational autonomous and self sufficient Understanding itself in this way this subject is at once the protagonist playwright director and spectator of the staged drama of human existence It is therefore inevitably monological lonely and alone and can neither escape its own presence nor get rid of it In other words it is bored and this boredom is the fundamental expression and symptom of the modern condition Considering such thinkers as Descartes Pascal Kant Kierkegaard Kracauer Heidegger and Benjamin

Critique of Bored Reason places boredom on center stage in the philosophical critique of modernity Nikulin also considers the alternative to the notion of the autonomous subject in the nonbored and nonboring dialogic and comic subject capable of shared existence with others

*Radical Critiques of the Law* Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best
