

Cross Legged Knight

Candace ROBB

Cross Legged Knight:

Early Secular Effigies in England H. A. Tummers,1980 **The Cross-Legged Knight** Candace Robb,2015-07-28 A medieval mystery grounded in the intrigue spawned by the bitter rivalry among King Edward III s sons An evocative and suspenseful whodunit Booklist York 1371 The Bishop of Winchester William of Wykeham is tasked with bringing home the remains of the powerful patriarch of the Pagnell family But Wykeham s arrival is fraught with tension The Pagnells are reeling from their father s death and they suspect Wykeham of having a hand in it Days after his arrival his townhouse burns to the ground a terrible accident or a threat When the charred body of a woman is found in the remains Wykeham fears for his reputation and his life The Archbishop of York John Thoresby turns to spy Owen Archer for help Preoccupied by his wife s tragic miscarriage Archer reluctantly agrees to investigate But the story is bigger than anyone suspects This tangled web includes knights bishops and even kings And after Owen discovers the dead woman is a midwife this dangerous plot starts to hit close to home Lively A convincing plot and a believable cast of characters Kirkus Reviews Thoroughly bolstered by a wealth of authentic historical detail Booklist Cross Legged Knight, The (kindle) Candace ROBB,2011-03-22 **An Encyclopaedia of Freemasonry and Its Kindred Sciences** Albert Gallatin Mackey,1874 Of Armor and Men in Medieval England RachelAnn Dressler,2017-07-05 Despite the profusion of knightly effigies created between c 1240 and c 1330 for tombs throughout the British Isles these commemorative figures are relatively unknown to art historians and medievalists Until now their rich visual impact and significance has been relatively unexplored by scholars In this study Rachel Dressler examines this category of sculpture illustrating how English military figures employ a visual language of pose costume and attributes to construct a masculine ideal that privileges fighting prowess elite status and sexual virility Like military figures on the Continent English effigies represent knights wearing chain mail and surcoats and bearing shields and swords unique to the British examples however is the display of an aggressive sword handling pose and dynamically crossed legs Outwardly hyper masculine the carved figures partake in artistic subterfuge the lives of those memorialized did not always match proffered images testifying to the changing function of the knight in England during the thirteenth and early fourteenth centuries This study traces the development of English military figures and analyzes in detail three fourteenth century examples those commemorating Robert I De Vere in Hatfield Broad Oak Essex Richard Gyvernay at Limington Somerset and Henry Allard in Winchelsea Sussex Similar in appearance these three sculptures represent persons of distinctly different social levels De Vere belonged to the highest aristocratic rank where Gyvernay was a lesser county knight and Allard was from a merchant family raising questions about his knightly standing Ultimately Dressler s analysis of English knight effigies demonstrates that the masculine warrior during the late Middle Ages was frequently a constructed ideal rather than a lived experience **An Encyclopaedia of Freemasonry and Its Kindred Sciences: Comprising the Whole Range of Arts, Sciences and Literature as Connected with the Institution** Albert Gallatin Mackey,1889 **An**
