Counseling Across Cultures Paul B. Pedersen, Walter J. Lonner, Juris G. Draguns, Joseph E. Trimble, Maria R. Scharron-del Rio, 2015-01-14
Offering a primary focus on North American cultural and ethnic diversity while addressing global questions and issues, Counseling Across Cultures, Seventh Edition, edited by Paul B. Pederson, Walter J. Lonner, Juris G. Draguns, Joseph E. Trimble, and Maria R. Scharron-del Rio, draws on the expertise of 48 invited contributors to examine the cultural context of accurate assessment and appropriate interventions in counseling diverse clients. The book's chapters highlight work with African Americans, Asian Americans, Latinos, American Indians, refugees, individuals in marginalized situations, international students, those with widely varying religious beliefs, and many others. Edited by pioneers in multicultural counseling, this volume articulates the positive contributions that can be achieved when multicultural awareness is incorporated into the training of counselors.

Counseling Cross-Culturally David J. Hesselgrave, 2002-01-08
Christians are being called upon increasingly to care, counsel, and cure across cultural boundaries, writes the author. Of course, foreign missionaries counsel people from other cultures, but so do many pastors, particularly those in urban settings. Because Christian counseling theory presupposes that counselor and counselee share the same culture, the insights of this discipline must be brought together meaningfully with the cross-cultural perspectives of missiology. Counseling Cross-Culturally pioneers this new field. After surveying approaches to counseling in the West and those in the non-Western world, the author develops a theory of Christian cross-cultural counseling. The final part, consistent with the author's broad view of counseling, discusses counseling concerned with the well-being of people, Christian conversion, spiritual growth, and development of a Christian life style and Christian service. Numerous case studies drawn from a variety of cultures provide realistic examples of the questions that counselors will encounter. A psychologist who trains Christian workers for cross-cultural service describes this book as a helpful, thoughtful study of complex issues surrounding counseling. It is extremely valuable to expose any missionary candidate to this type of book. It broadens awareness to cross-cultural issues and touches on common problems of missionary counselors. Counseling Cross-Culturally is an admirable attempt to integrate a conservative evangelical theology with the complexities of culture and life.

Multicultural Counseling Competencies is a state of the art book integrating the literature and work on multicultural counseling competencies. It draws out implications for individual professional and institutional development by identifying the characteristics related to culturally competent mental health care. As such, it has relevance for practitioners who will increasingly encounter client populations who differ from them in terms of race, culture, and ethnicity. It suggests how the mental health profession needs to alter its practices to fit the needs of the culturally different in our society and it advocates changes in mental health policy, programs, and organization. In a very systematic manner, the text provides a working definition of multiculturalism from which counselors, therapists, and social workers can ground their awareness, knowledge, and skills. It presents a new concept called ethnocentric monoculturalism and traces how it has inundated our society and the mental health professions. Written by leaders in the field of multicultural counseling, **Multicultural Counseling Competencies** is a landmark volume in clinical and counseling psychology, educational psychology, gender studies, nursing, social work, psychology, health services, interpersonal violence, and ethnic studies.

Principles of Multicultural Counseling and Therapy Uwe P. Gielen, Juris G. Draguns, Jefferson M. Fish, 2008-06-19. In an era of globalization characterized by widespread migration and cultural contacts, psychologists, counselors, and other mental health professionals face a unique challenge: how does one practice successfully when working with clients from so many different backgrounds? Gielen, Draguns, and Fish argue that an understanding of the general principles of multicultural counseling is of great importance to all practitioners. The lack of this knowledge can have several negative consequences during therapy, including differences in expectations between counselor and client, misdiagnosis of the client's concerns, missed non-verbal cues, and the client feeling that she has been misunderstood. This volume focuses on the general nature of cultural influences in counseling rather than on counseling specific ethnic groups. Counseling practices from all over the world, not just those of Western society, are explored. Bringing together the work of a diverse group of international experts, the editors have compiled a volume that is not only concise and teachable but also an essential guidebook for all mental health professionals.
