Crossing The Wasteland An Intellectual Quest For God:

Crossing the Wasteland Samuel B. Southwell, 2002-06-01 The author draws upon the experience of a diverse career in the foreign service and academia to argue that restoration of our cultural health depends upon our finding our way to orthodox religious faith Proposed transformations of our conceptions of reality and of history make it a realistic possibility Richly original analyses are of much interest for the many disturbed by modern challenges to faith The book demonstrates that the intellectual obstacles to religion have destroyed their own foundations It establishes the intellectual respectability of faith and sustains the authenticity of all traditional religions
