

DID SOMEBODY SAY TOTALITARIANISM?

FIVE INTERVENTIONS IN THE (MIS)USE OF A NOTION

SLAVOJ ŽIŽEK

Did Someone Say Totalitarianism Five Interventions In The Misuse Of A Notion

Julian Bourg

Did Someone Say Totalitarianism Five Interventions In The Misuse Of A Notion:

After the Deluge Julian Bourg, 2004-01-01 Motivated by a desire to narrate and contextualize the deluge of French theory *After the Deluge* showcases recent work by today's brightest scholars of French intellectual history that historicizes key debates figures and turning points in the postwar era of French thought

Emerson as Philosopher Richard Gilmore, 2023-05-31 This book considers the role of postmodernism skepticism towards metanarratives and anti essentialism in Ralph Waldo Emerson's philosophy by putting it in conversation with key 20th and 21st century thinkers such as Beauvoir Coates Derrida Paz Rorty and Zizek Postmodern Emerson shows how Emersonian skepticism to metanarratives such as sexism racism Beauvoirian serious values and others can help us face some of society's gravest contemporary social and philosophical challenges Methodologically the book exemplifies Emersonian postmodernism by defying traditional philosophical metanarratives about the difference between high and low culture or serious and ridiculous subjects and Emerson with what would seem to be his opposite This is itself a postmodern gesture breaking rules of genre and topic to make unlikely but interesting connections Above all this book proves that in this time of social division and widespread despair Emerson can help

Liminality and the Philosophy of Presence Franziska Hoppen, 2021-03-16 This book departs from the attempt by political theory to confront the challenges of political life with new concepts offering instead a mode of thought so far excluded from the canon of political theory the philosophy of presence Making the experience of liminality the very centre of thought it shows how embracing in betweenness allows us to discern the limits of both the political order and contemporary political theory Through an examination of the works of Gustav Landauer Eric Voegelin Simone Weil and Václav Havel the author demonstrates the manner in which in betweenness may be cultivated by way of the philosophy of presence as a method of self enquiry into existence as it is experienced subjectively Arguing that since externalisation is the essence of politics and that the way to a more just society lies inwards through a confrontation with liminality this study of how to read philosophers of presence renders their work intelligible to the contemporary discourse of crisis and will appeal to scholars of social political and anthropological theory and philosophy

[The Routledge Companion to Critical Accounting](#) Robin Roslender, 2017-09-11 The field of critical accounting has expanded rapidly since its inception and has become recognised as offering a wealth of provocative insights in the wake of the global financial crisis It is now firmly embedded within accounting literature and in how accounting is taught Surveying the evolving field of Critical Accounting including theory ethics history development and sustainability this Companion presents key debates in the field providing a comprehensive overview Incorporating interdisciplinary perspectives on accounting the volume concludes by considering new directions in which critical accounting research may travel With an international array of established and respected contributors this Routledge Companion is a vital resource for students and researchers across the world

Totalitarianism David D. Roberts, 2020-04-20 Less than a century old the concept of totalitarianism is one of the most

controversial in political theory with some proposing to abandon it altogether In this accessible wide ranging introduction David Roberts addresses the grounds for skepticism and shows that appropriately recast as an aspiration and direction rather than a system of domination totalitarianism is essential for understanding the modern political universe Surveying the career of the concept from the 1920s to today Roberts shows how it might better be applied to the three classic regimes of Fascist Italy Nazi Germany and the Stalinist Soviet Union Extending totalitarianism's reach into the twenty first century he then examines how Communist China Vladimir Putin's Russia the Islamic Republic of Iran the self proclaimed Islamic State IS and the threat of the technological surveillance state can be conceptualized in the totalitarian tradition Roberts shows that although the term has come to have overwhelmingly negative connotations some have enthusiastically pursued a totalitarian direction and not simply for power control or domination This volume will be essential reading for any student scholar or reader interested in how totalitarianism does and could shape our modern political world *Staging the Third Reich* Anson Rabinbach, 2020-07-08 A widely celebrated intellectual historian of twentieth century Europe Anson Rabinbach is one of the most important scholars of National Socialism working over the last forty years This volume collects for the first time his pathbreaking work on Nazi culture antifascism and the after effects of Nazism on postwar German and European culture Historically detailed and theoretically sophisticated his essays span the aesthetics of production messianic and popular claims the ethos that Nazism demanded of its adherents the brilliant and sometimes successful efforts of antifascist intellectuals to counter Hitler's rise the most significant concepts to emerge out of the 1930s and 1940s for understanding European authoritarianism the major controversies around Nazism that took place after the regime's demise the philosophical claims of postwar philosophers sociologists and psychoanalysts from Theodor Adorno to Hannah Arendt and from Alexander Kluge to Klaus Theweleit and the role of Auschwitz in European history State, Security, and Subject Formation Anna Yeatman, Magdalena Zolkos, 2009-11-02 *State Security and Subject Formation* addresses the question of how to secure the conditions for a civil and peaceful life together It brings together leading scholars to examine democracy from two approaches peaceful coexistence and the secular state as public authority and the necessity of division between communities of faith that allows for a state that defends the values of the community This book aims to understand the rationality that informs both approaches interpreting the subjectivities within each To do so the interdisciplinary scholarly essays examine 17th century political thought and how it is caught up in debate about the relationship between faith and the state at a time when religious wars are endemic and profoundly destructive They also provide an in depth discussion of contemporary 21st and 20th century approaches to the question of security and the issue of subjective capacity for peaceful co existence *Civil Order and Politics* is the outcome of an intensive cross disciplinary cooperation and as such not only demonstrates the richness of relevant themes and issues but also brings to the fore challenges and problems associated with civil practice and theorizing of politics Through its thematic juxtaposition of state security and subjectivity within the

framework of civil order and politics the book fills a gap in the contemporary political literature that will be of interest to anyone studying and researching these issues

Did Somebody Say Totalitarianism? Slavoj Žižek, 2001 In some circles a nod towards totalitarianism is enough to dismiss any critique of the status quo Such is the insidiousness of the neo liberal ideology argues Slavoj Žižek Did Somebody Say Totalitarianism turns a specious rhetorical strategy on its head to identify a network of family resemblances between totalitarianism and modern liberal democracy Žižek argues that totalitarianism is invariably defined in terms of four things the Holocaust as the ultimate diabolical evil the Stalinist gulag as the alleged truth of the socialist revolutionary project ethnic and religious fundamentalisms which are to be fought through multiculturalist tolerance and the deconstructionist idea that the ultimate root of totalitarianism is the ontological closure of thought Žižek concludes that the devil lies not so much in the detail but in what enables the very designation totalitarian the liberal democratic consensus itself

Moving Beyond Apocalypse Christine Patricia Cavanaugh, 2006

Architecture or Revolution Nadir Lahiji, 2020-09-22 By linking building theory to the emancipatory project of critique advanced by radical thinkers in our time this work investigates the key conceptual and historical elements that culminate in an emancipatory theory of building entitled Toward a philosophy of shelter Taking Marx as its only resource this work proceeds with the conviction that our era is contemporaneous to Marx's historical era This means not judging the validity of Marx from the perspective of the historical situation but rather demonstrating the validity of a Marxian perspective for a singular historical situation as ours This work will therefore translate this perspective into seeing the situation of architecture through the eyes of Marx All those concerned with the predicament in our current condition in which architecture must play a major social role in upholding the universal value of what Alain Badiou calls generic humanity will take an interest in this work In particular architects critics scholars and students inside the field of architecture who would be seeking the application of this universal value to a new theory of building will be a welcoming audience for this work

Kontra-gahum, 2006

Did Somebody Say Totalitarianism? Slavoj Žižek, 2014-04-08 In some circles a nod towards totalitarianism is enough to dismiss any critique of the status quo Such is the insidiousness of the neo liberal ideology argues Slavoj Žižek Did Somebody Say Totalitarianism turns a specious rhetorical strategy on its head to identify a network of family resemblances between totalitarianism and modern liberal democracy Žižek argues that totalitarianism is invariably defined in terms of four things the Holocaust as the ultimate diabolical evil the Stalinist gulag as the alleged truth of the socialist revolutionary project ethnic and religious fundamentalisms which are to be fought through multiculturalist tolerance and the deconstructionist idea that the ultimate root of totalitarianism is the ontological closure of thought Žižek concludes that the devil lies not so much in the detail but in what enables the very designation totalitarian the liberal democratic consensus itself
