Did George W. Bush Steal America's 2004 Election? Robert J. Fitrakis, Steven Rosenfeld, Harvey Wasserman, 2005

This is the number one source book for the theft of the 2004 presidential election and control of the 2008 presidential contest compiled by the reporters Rev Jesse Jackson calls the Woodward Bernstein of the 2004 election This blunt hard hitting digest outlines and sources point by point what happened in Ohio to in 2004 to give George W Bush a second term Written by the two reporters who made this a global story there is no more essential guidebook for electoral politics in the new millennium

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal

history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

Born to Cheat Jackson Thoreau, 2007 Naked at the Mic / L.A. Steel, 2010-03

Naked at the Mic The Survival of a Liberal in a Time of Peril Is a work of exhaustive research and remembrance as a historic account of the politics and social upheaval during the Conservative Revolution that took place during the first decade of the 21st Century as I witnessed and reported it on my television and radio programs during the years of 2000 to 2009 This book is also a personal account and compliment to the many people who fought so valiantly to broadcast truth and liberal commentary while the entire broadcast media was dominated and censored by the Conservative right wing the G W Bush administration and the cabal of Muslim hating warmongers famously known as the NeoCons Naked at the Mic also commemorates the many people who stood up against the G W Bush administration and their nightmare of genocide and slaughter in the Middle East and the cruel corrupt and oppressive government they imposed on the American people during their reign of terror and torture from 2000 to 2008 I also speak honestly about the 2008 presidential candidates and the election of Barack Obama and why I voted for him and my great disappointment after his horrific betrayal of all who elected him The research for Naked at the Mic entailed over 5000 news articles that I have personally archived and preserved on paper to verify every quote and reference I make and over 100 books and interviews of authors activists and politicians on 400 archived radio shows and ten televised documentaries I had produced up to 2009 when I completed writing this book It is an honest look back through time at people and events that have been at the forefront of national and world changing events Naked at the Mic is a historical record of one of the most volatile decades in American and world history It discusses many of the most important national and international issues from 2000 2009 the corrupt 2000 presidential election 911 the Afghanistan and Iraq invasions Katrina and exposes the massive corporate financial and political corruption and mass media coverups up to the end of 2009 I honestly discuss and expose left and right wing politics and give a unique front line perspective of the massive sea change of American Society that caused G W Bush s 75 percent approval rating in 2001 to his final approval rating of 24% in 2008 Naked at the Mic is honest fast moving highly informative and well researched and is an accurate historical account of one of the most politically conservative and most destructive periods in American history that has led to the current economic military and moral demise of America Ralph Waldo Emerson once
