Die Romane Goethes:

Goethe's Elective Affinities and the Critics Astrida Orle Tantillo, 2001 The first book length examination in English of the critical reception of Goethe's daring novel *The Elective Affinities* From the time of its publication to today Goethe's famous novel *The Elective Affinities* *Die Wahlverwandtschaften* 1809 has aroused a storm of critical confusion Critics in every age have vehemently disagreed about its content whether it defends the institution of marriage radically supports its dissolution or even whether it is about marriage at all its style whether it is romantic realistic modern or postmodern and its tone whether it is tragic anti romantic or ironic The present study begins by focusing upon the reaction of Goethe's contemporaries and then discusses Goethe's own efforts in light of the initial negative critical reaction to shape the novel's reception It continues by viewing the novel through the lens of 19th century Hegelianism positivism and biographical studies and by exploring the relationship between the novel's 19th century reception and the growth of psychoanalytic theory and German nationalism Moving on to the 20th century the book considers the re-evaluation of Goethe's scientific works the impact of World War II on the novel's interpreters and the growing influence of literary theory Here particular emphasis is placed upon Walter Benjamin's seminal essay on the novel and upon the criticism that the essay has inspired Astrida Orle Tantillo is assistant professor of German at the University of Illinois at Chicago *Goethe Yearbook* 7 Thomas Saine, 1994-11-17 A publication of the Goethe Society of North America carrying Goethe criticism and studies of his contemporaries extensive book review section The *Goethe Yearbook* is a publication of the Goethe Society of North America which was founded in 1980 to promote the study of Goethe and his contemporaries Originally conceived as a vehicle for Goethe criticism in English during the Cold War political tensions when the most prestigious Goethe publication the *Goethe Jahrbuch* was not available to most Western scholars the *Yearbook* subsequently gained the respect of the international community and has published articles in both English and German by scholars from around the world it is unique among other periodicals devoted to the Goethezeit for its extensive book review section *The Cambridge Companion to Goethe* Lesley Sharpe, 2002-05-02 The *Cambridge Companion to Goethe* provides a stimulating and accessible survey of this many-sided figure The volume places Goethe in the context of the Germany and Europe of his lifetime His literary work is covered in individual chapters on poetry drama with a separate chapter on *Faust* prose fiction and autobiography A wide ranging survey of reception inside and outside Germany and an extensive guide to further reading round off this volume which will appeal to students and specialists alike *In the Place of Language* Claudia Brodsky, 2009-08-25 The place in the title of Claudia Brodsky's remarkable new book is the intersection of language with building the marking for future reference of material constructions in the world The referent Brodsky describes is not something first found in nature and then named but a thing whose own origin joins language with materiality a thing marked as it is made to begin with In *In the Place of Language* Literature and the Architecture of the Referent develops a theory of the referent that is thus also a theory of the possibility of

historical knowledge one that undermines the conventional opposition of language to the real by theories of nominalism and materialism alike no less than it confronts the mystical conflation of language with matter whether under the aegis of the infinite reproducibility of the image or the identification of language with Being Challenging these equally naive views of language as essentially immaterial or the only essential matter Brodsky investigates the interaction of language with the material that literature represents For literature Brodsky argues seeks no refuge from its own inherently iterable discursive medium in dreams of a technologically induced freedom from history or an ontological history of language being Instead it tells the complex story of historical referents constructed and forgotten things built into the earth upon which history takes place and of which in the course of history all visible trace is temporarily effaced Literature represents the making of history the building and burial of the referent the present world of its oblivion and the future of its unearthing and it can do this because unlike the historical referent it literally takes no place is not tied to any building or performance in space For the same reason literature can reveal the historical nature of the making of meaning demonstrating that the shaping and experience of the real the marking of matter that constitutes historical referents also defers knowledge of the real to a later date Through close readings of central texts by Goethe Plato Kant Heidegger and Benjamin redefined by the interrelationship of building and language they represent In the Place of Language analyzes what remains of actions that attempt to take the place of language the enduring if intermittently obscured bases of theoretical reflection itself

Figures of Identity Clark S. Muenzer, 1990-10-01 The question of coherence in Goethe's novels which like Faust compelled his attention throughout his creative life has only recently occupied a few critics Professor Muenzer's study offers the most comprehensive effort of this kind by examining the problematic nature of self definition through the four novels and its emergence as a discursive process of the imagination The self of these texts Muenzer suggests evolves as a symbolic construct that records a pattern of pursuit for each of their protagonists and orients the reader toward three basic goals of human aspiration Thus Werther aspires to purposefulness as a center of teleological fulfillment while the hero of Wilhelm Meister's Apprenticeship refers to an ideological center of participation in his social desire Eduard in The Elective Affinities presumes to occupy a center of archaeological power through his typically self assertive strategies In the last of his novels Wilhelm Meister's Journeymanhood Goethe articulates the need to balance all such self involved behavior with an attitude of self denial Apparently the mind can orient itself through centers of purpose order and power but it must also recognize the illusion of their attainment Identity does not involve a substantive presence and the result of self definition for Goethe is interpretive work Each of Professor Muenzer's interpretations has been guided by this premise The interests of all of Goethe's novelistic protagonists he concludes serve as orienting postures toward goals that cannot be literally achieved Consequently symbolic resolutions are proposed These then introduce new problems as points of departure in subsequent works The hidden agenda of Goethe's work as a novelist is a self that exists as a textual problem a series of interpretive moves that endlessly defer the

attainment of self presence by supplementing each other in narrative fictions **Goethe Yearbook 16** Daniel Purdy, 2009-01-15 Groundbreaking essays highlighting Goethe's relevance to contemporary theoretical debates and Goethe criticism of recent decades The Goethe Yearbook first published in 1982 is a publication of the Goethe Society of North America and is dedicated to North American Goethe Scholarship It aims above all to encourage and publish original English language contributions to the understanding of Goethe and other authors of the Goethezeit while also welcoming contributions from scholars around the world Goethe Yearbook 16 presents innovative interpretations by young scholars of Goethe's most prominent works A special section on 20th century theory co edited by Angus Nicholls demonstrates the poet's importance within areas of contemporary debate such as postcolonial criticism and Heideggerian phenomenology The volume includes Judith Ryan's 2007 Presidential Address to the Goethe Society on the aphorisms in *Die Wahlverwandtschaften* and the *Wanderjahre* as well as essays on aspects of Hermann und Dorothea Iphigenie Wilhelm Meisters Lehrjahre and Prometheus Readers will also find a surprising interpretation of Schiller on subjectivity and military strategy and a feminist archival history of the Hamburg actress Charlotte Ackermann Contributors Volker C D r r Mary Helen Dupree Ellis Dye Bernd Hamacher Katrin Kohl Michael Mandelartz Jan Mieszkowski Angus Nicholls Charlton Payne Mattias Pirholt Myriam Richter Judith Ryan and Christian Weber Daniel Purdy is Associate Professor of German at Pennsylvania State University Book review editor Catriona MacLeod is Associate Professor of German at the University of Pennsylvania **The Literary History of Hamlet** Kemp Malone, 1923 **Goethe, Sein Leben und Seine Werke** Albert Bielschowsky, Theobald Ziegler, 1913 **Goethe's Elective Affinities** John Winkelmann, 1987 This study is addressed to two audiences the community of Goethe scholars and the wider audience of English speaking readers interested in improving their acquaintance with Germany's greatest author It presents a new understanding of the story and a corresponding reinterpretation of the novel as an allegory depicting the forces at work in western civilization at the opening of the nineteenth century and foretelling the outcome of their interaction **Modern Philology**, 1918 Vols 30-54 include 1932-56 of Victorian bibliography prepared by a committee of the Victorian Literature Group of the Modern Language Association of America Goethe-Jahrbuch Ludwig Geiger, 1906 *Goethe-Jahrbuch*, 1888 Magazin für die Literatur des In- und Auslandes, 1903 *Goethes Anteil an Jung-Stillings "Jugend"* Leo Reidel, 1906 *Goethe-Feier der Deutschen von Chicago zu Johann Wolfgang von Goethe's 150-jährigen Geburtstag ; Sonntag, den 3.
