Die Dreizehnte Fee:

Kant's Theory of Value Christoph Horn, Robinson dos Santos, 2022-10-03 In explicit form Kant does not speak that much about values or goods. The reason for this is obvious: the concepts of values and goods are part of the eudaimonistic tradition and he famously criticizes eudaimonism for its flawed material approach to ethics. But he uses on several occasions the traditional teleological language of goods and values. Especially in the *Groundwork* and the *Critique of Practical Reason* Kant develops crucial points on this conceptual basis. Furthermore he implicitly discusses issues of conditional and unconditional values, subjective and objective values, aesthetic or economic values etc. In recent Kant scholarship there has been a controversy on the question how moral and nonmoral values are related in Kant's account of human dignity. This leads to the more fundamental problem if Kant should be seen as a prescriptivist antirealist or as subscribing to a more objective rational agency account of goods. This issue and several further questions are addressed in this volume. **Contemporary Jewish**

Writing in Germany Leslie Morris, Karen Remmler, 2002-01-01 This anthology features a diverse and compelling array of writings from prominent Jewish authors in Germany today. The writers included here Katja Behrens, Maxim Biller, Esther Dischereit, and Barbara Honigmann did not experience the Holocaust firsthand, though their works continually explore the meaning of it as it is remembered and forgotten in contemporary Germany. From different perspectives, these authors offer incisive reflections on German Jewish relations today. They wrestle in particular with the strangeness of living in a country where unencumbered relationships between Germans and Jews are rare. Also surfacing in their writings are the many foundations and challenges to modern Jewish identity in Germany, including the vicissitudes of gender roles and the experience of emigration, intergenerational conflict, and sexuality. *Contemporary Jewish Writing in Germany* not only features a set of engaging stories but also encourages a deeper understanding of the experiences of Jews in Germany today.

Writing New Identities Gisela Brinker-Gabler, Sidonie Smith, 1997 **Keepers of the Motherland** Dagmar C. G. Lorenz, 1997-01-01 *Keepers of the Motherland* is the first comprehensive study of German and Austrian Jewish women authors. Dagmar Lorenz begins with an examination of the Yiddish author Glikl Hamil, whose works date from the late seventeenth and early eighteenth centuries, and proceeds through such contemporary writers as Grete Weil, Katja Behrens, and Ruth Klüger. Along the way she examines an extraordinary range of distinguished authors, including Else Lasker-Schüler, Rosa Luxemburg, Nelly Sachs, and Gertrud Kolmar. Although Lorenz highlights the author's individualities, she unifies *Keepers of the Motherland* with sustained attention to the ways in which they all reflect upon their identities as Jews and women. In this spirit, Lorenz argues that the themes and characters, as well as the environments evoked in the texts of Jewish women authors writing in German, resist patriarchal structures. The term *motherland*, defining the domain of the Jewish woman's native language regardless of political or ethnic boundaries, is juxtaposed with the concept *fatherland*, referring to the power structures of the nation or state in which she resides. Lorenz describes a vital, diverse, and largely dissident literary tradition, a

brilliant countertradition in effect that has endured in spite of oppression and genocide Combining careful research with inspired synthesis Lorenz provides an indispensable work for students of German Jewish and women's writings Troubling Maternity Emily Jeremiah, 2003 The question of maternity is crucial for feminists to whom it represents both challenge and inspiration as it is for many thinkers engaged with the issues of agency corporeality and ethics This examination puts forward the idea of a maternal performativity drawing on the work of Judith Butler and numerous other feminist theorists to offer new ways of looking at 1970s and 1980s literary texts by ten German speaking women writers including Barbara Frischmuth Elfriede Jelinek Irmtraud Morgner and Karin Struck It argues that as yet maternal agency has not adequately been theorized a project which is urgent given the traditional view in Western culture of the mother as passive and suggests that Butler's notion of performativity can assist in this task It proposes a performative conception of both mothering and literature and links both of these to the question of ethics which is understood as involving embodiment and relationality To different extents all of the texts examined depict mothers as marginal abject or insane thus demonstrating the operations of exclusion and the need for a maternal agency to be developed and enacted The idea of maternal performativity is refined in five chapters which focus respectively on community corporeality the mother child relationship the family and discursive production The conclusion explores the ethics of literary practice and knowledge production and argues that in the light of the developing fields of new reproductive technologies and genetics it is imperative that we seek new understandings of embodiment community and care a task to which this study aspires to contribute *Unlikely History* J. Zipes, L. Morris, 2016-04-30 In the English speaking world it is generally believed that there are very few Jews living and thriving in Germany Yet there has been an unlikely postwar history 1945-2001 that has been somewhat repressed in North America and the United Kingdom While most people are well informed about the Holocaust and the consequences that this tragic event has had for the world very few people know that there has been a steady increase in the population of Jews in Germany since 1945 and that there is a flourishing Jewish culture certainly a relatively strong Jewish presence in Germany today Does this development mean that Jews are playing a significant role in German social life Does this mean that the great German Jewish relationship often referred to as a kind of symbiosis has re-emerged despite the odds against it The sixteen essays in this book written by the leading critics in the field cover the fascinating changes that have been made in German society since 1945 in the Jewish communities literature theater film architecture and other areas of interest including an examination of the resurgence of anti-Semitism in Austria For anyone interested in reading about the unpredictable transformations in German Jewish relations since 1945 *Unlikely History* will provide information and insights into a history that needs to be told to bring about greater understanding of Jews and Germans in contemporary Germany *Germanic Notes and Reviews*, 1999 **Die Lehrkunst** Albrecht Goerth, 1891 Die Dreizehnte Fee Julia Adrian, 2016 Zwischen Muttermord und Muttersehnsucht Susanne Lackner, 2003 *A new conversation grammar of the German language* Andreas Boltz, 1872
