Realisms of the Avant-Garde Moritz Baßler, Benedikt Hjartarson, Ursula Frohne, David Ayers, Sascha Bru, 2020-09-21

The historical avant gardes defined themselves largely in terms of their relationship to various versions of realism At first glance modernism primarily seems to take a counter position against realism yet a closer investigation reveals that these relations are more complex This book is dedicated to the links between realism modernism and the avant garde in their international context from the late 19th century up to the present day

Literary Communication from Consensus to Rupture Colin Barr Grant, 2023-03-13

This study the first of its kind in English sets out to analyse literature as a form of social communication by considering developments in literary theory and practice in the German Democratic Republic in the Honecker era Attention focuses on the changes in the discourses of literary theory and literary practice in a semi public sphere controlled by an increasingly ossified political discourse Key developments in the 1970s hailed by GDR theorists as the point of departure for a new kind of literary communication in society are carefully examined The study then contrasts these idealised views of literature as social communication with practice and theory in the late 1970s and 1980s In clear trends in practice and to a lesser extent in theory communication was perceived as being increasingly problematic and conflictual The development from this sense of destabilisation to the rupturing in communication between literature and society between literature and political authority and in literature itself became more salient in the 1980s as its forms and themes radically challenged the mounting stagnation of the discourse of political power These conflicts are illustrated and discussed with the aid of detailed analyses of key literary texts and previously unpublished interviews with leading theorists

In My Eyes Wilfried Kriese, 2004

Günter Wallraff He was the hero of the 70s and 80s Using controversial methods he wrote against the powers that be in Germany In the Industrie Reportagen in his role as the Turk Ali or as Hans Esser editor at the Bild newspaper Günter Wallraff has repeatedly touched a raw nerve of society his methods have polarized opinions to this day This is the way Günter Wallraff is introduced most of the time It is clear however that if many people among the young and old know about the arguably most controversial European writer they do so just superficially For the first time a book comprehensively presents Günter Wallraff
