Die Schatten Der Vergangenheit Impulse:

Fascism Paul Gottfried, 2016-02-08 For historians Fascism offers clear and provocative insights and arguments and the very detailed notes are especially helpful Recommended Choice What does it mean to label someone a fascist Today it is equated with denouncing him or her as a Nazi But as intellectual historian Paul E Gottfried writes in this provocative yet even handed study the term s meaning has evolved over the years Gottfried examines the semantic twists and turns the term has endured since the 1930s and traces the word s polemical function within the context of present ideological struggles Like conservatism liberalism and other words whose meanings have changed with time fascism has been used arbitrarily over the years and now stands for a host of iniquities that progressives multiculturalists and libertarians oppose even if they offer no single coherent account of the historic evil they condemn Certain factors have contributed to the term s imprecise usage Gottfried writes including the equation of all fascisms with Nazism and Hitler as well as the rise of a post Marxist left that expresses predominantly cultural opposition to bourgeois society and its Christian and or national components Those who stand in the way of social change are dismissed as fascist he contends an epithet that is no longer associated with state corporatism and other features of fascism that were once essential but are now widely ignored Gottfried outlines the specific historical meaning of the term and argues that it should not be used indiscriminately to describe those who hold unpopular opinions His important study will appeal to political scientists intellectual historians and general readers interested in politics and history

Alfred Valdmanis and the Politics of Survival Gerhard P. Bassler, 2000-01-01 Valdmanis s wily political manoeuvring in Latvia Germany and Canada from 1938 to 1954 is more the stuff of fiction than history The Frankfurt Auschwitz Trial, 1963-1965 Devin Owen Pendas, 2010-03-08 Drawing on a wide range of archival sources this book provides a comprehensive history of the Frankfurt Auschwitz trial Hitler's War in the East, 1941-1945 Rolf-Dieter Müller, Gerd R. Ueberschär, 1997 There is still a widespread assumption that the Second World War was won in the West when in fact the tide was first turned on the Eastern front This book written by two internationally known experts on the subject argues that Hitler s Ostkrieg was the central event of the global conflict between the Allies and the Axis powers However this is much more than a traditional military political history it deals with Nazi crimes and economic exploitation with the psychological war No less significantly this volume provides a guide to the extensive literature on the war in the East including largely unknown Soviet writing on the subject Indispensable for military historians but also for all scholars who approach this crucial period in world history from a socio economic or cultural perspective *Never Again!* Helmut Schreier, Matthias Heyl, 1997

Thinking in the Shadow of Hell Jacques Doukhan, 2002 This important work is derived from the proceedings of a symposium held at Andrews University under the coordination of the Institute of Jewish Christian Studies of the Seventh day Adventist Theological Seminary and with the active participation of the International Religious Liberty Association BOOK JACKET *Culture and Identity* Suzanne Stern-Gillet, 1996 Monatshefte , 1946 **International Review of Social**

History , *Echoes of the Holocaust* Klas-Göran Karlsson,Ulf Zander,2003 In what ways has the Holocaust been used to push for the satisfaction of various needs and objectives in Europe The authors take this question as their point of departure in order to reflect upon the role of history in general and the effects of the Holocaust in particular The study how when and why the collective memory of the Holocaust has been expressed and activated for cultural economic political and social reasons Memories of the Nazi genocide in the German Polish borderlands the Holocaust in Russian history school books and the debates on the American television series Holocaust are among the topics covered by the articles in this anthology

Modern Europe After Fascism, 1943-1980s ,1998 A Survey of Interpretive Paradigms in Holocaust Studies and a Comment on the Dimensions of the Holocaust ; and "The Annihilation of Superfluous Eaters" : Nazi Plans for and Use of Famine in Eastern Europe Steven Robert Welch,2001 German Politics and Society ,1995 War and Society Newsletter ,1991 **Geschichte der geschichtsschreibung** ,1996 **International Journal of Contemporary Sociology** ,2002

Totalitarianism and Political Religions Volume III Hans Maier,2007 Available for the first time in English language translation the third volume of Totalitarianism and Political Religions completes the set It provides a comprehensive overview of key theories and theorists of totalitarianism and of political religions from Hannah Arendt and Raymond Aron to Leo Strauss and Simone Weill Edited by the eminent Professor Hans Maier it represents a major study examining how new models for understanding political history arose from the experience of modern despotic regimes Where volumes one and two were concerned with questioning the common elements between twentieth century despotic regimes Communism Fascism National Socialism Maoism this volume draws a general balance It brings together the findings of research undertaken during the decade 1992 2002 with the cooperation of leading philosophers historians and social scientists for the Institute of Philosophy at the University of Munich Following the demise of Italian Fascism 1943 45 German National Socialism 1945 and Soviet Communism 1989 91 a comparative approach to the three regimes is possible A broad field of interpretation of the entire phenomenon of totalitarian and political religions opens up This comprehensive study examines a vast topic which affects the political and historical landscape over the whole of the last century Moreover dictatorships and their motivations are still present in current affairs today in the twenty first century The three volumes of Totalitarianism and Political Religions are a vital resource for scholars of fascism Nazism communism totalitarianism comparative politics and political theory

Administration publique en système totalitaire Erk Volkmar Heyen,1998 The Yearbook of European Administrative History is the only interdisciplinary and comparative scientific periodical of its type dealing mainly with European administration from the 17th to 20th century Each volume is dedicated to a principal topic of interest Additionally it offers criticisms and information on the status of research in individual European countries The contributions appear in German French Italian and English language and contain an English summary **Historical Abstracts** ,1995 **In**

Pursuit of German Memory Wulf Kansteiner,2006 The collective memories of Nazism that developed in postwar Germany

have helped define a new paradigm of memory politics From Europe to South Africa and from Latin America to Iraq scholars have studied the German case to learn how to overcome internal division and regain international recognition In Pursuit of German Memory History Television and Politics after Auschwitz examines three arenas of German memory politics professional historiography national politics and national public television that have played key roles in the reinvention of the Nazi past in the last sixty years Wulf Kansteiner shows that the interpretations of the past proposed by historians politicians and television producers reflect political and generational divisions and an extraordinary concern for Germany's image abroad At the same time each of these theaters of memory has developed its own dynamics and formats of historical reflection Kansteiner's analysis of the German scene reveals a complex social geography of collective memory In Pursuit of German Memory underscores the fact that German memories of Nazism like many other collective memories combine two seemingly contradictory qualities They are highly mediated and part of a global exchange of images and story fragments but at the same time they can be reproduced only locally in narrowly circumscribed networks of communication
