Die Schweiz ohne Orientierung? Hans Küng, 1992 The New Georgics, 2016-09-12 The human condition in rural provincial locations is once again gaining status as a subject of European high fiction after several decades in which it was dismissed on aesthetic and ideological grounds This volume is one of the first attempts to investigate perspectives on local cultures values and languages both systematically and in a European context It does so by examining the works of a variety of authors including Hugo Claus Llamazares Bergounioux and Millet Buffalino and Consolo and also several Soviet authors who paint a grim picture of a collectivized and thus ossified rurality How do these themes relate to the ongoing trend of globalization How do these works which are often experimental connect in their form topics language and ideological subtext to the traditional rural or regional genres Far from naively celebrating a lost Eden most of these new Georgics reflect critically on the tensions in contemporary peripheral rural or regional cultures to the point of parodying the traditional topoi and genres This book is of interest to those wishing to reflect on the dynamics and conflicts in contemporary European rural culture *The Germans And Their Neighbors* Dirk Verheyen, Christian Soe, 2019-07-09 For Germany's neighbors perhaps more acutely than for observers elsewhere the 1990 reunification of divided Germany has raised old memories and new concerns in public and scholarly discourse The shape and influence of these issues are the subject of this unique ambitious book Organized into country specific chapters the book offers original expert analyses of Germany's relations with seventeen European neighbors as well as with the United States The contributors explore the essential concerns these nations have faced in their bilateral relations with Germany past present and future In their introduction the editors trace both commonality and diversity in various national conceptions of the German Question and the ways in which these perceptions in turn generate shared as well as divergent national policy agendas vis a vis united Germany **Schweiz schreiben** Jürgen Barkhoff, Valerie Heffernan, 2010-05-27 Unter dem Stichwort Mythos Schweiz diskutiert dieser Band die prominente Rolle insbesondere der Deutschschweizer Literatur für Identitätsbildungsprozesse und ihre kritische Reflexion in der Schweiz im 20.
