Crises And Resistance In The 21st Century World System

Jonathan Friedman, Christopher Chase-Dunn

Crises And Resistance In The 21st Century World System:

The Nation in the Global Era Jerry Harris, 2009 The Nation in the Global Era Conflict and Transformation makes available a unique blend of multi disciplinary research covering topics that present the most current thinking on key developments concerning globalization Its main focus covers questions of transnational class and identity in relationship to the nation state *Emerging Issues in the 21st Century World-system: Crises and resistance in the 21st century world-system* Wilma A. Dunaway, 2003 As one half of the latest edition of Immanuel Wallerstein s Political Economy of the World System series this collection offers cutting edge theoretical directions to explain the structural crises of the 21st century world system Contributors argue that the capitalist world system has reached a critical bifurcation point a short period which will be characterized by a sudden shift in the long term structural forces that have created and sustained the world as we know it Writers challenge conventional thinking about the most significant structural crises that face the 21st century world system including terrorism debt the growth of megacities as global actors the emergence of a powerful transnational capitalist class and the world ecological crisis *Handbook of Social Problems* George Ritzer, 2004 Ritzer s Handbook of Social Problems offers a comprehensive treatment of today s major societal issues The articles are authored by some of the top scholars in the field and address problem areas that will capture the interests of students and professors alike The international coverage is most welcome in this time of intensifying global inequalities Nancy Jurik Arizona State University The Handbook of Social Problems A Comparative International Perspective provides a unique broadly comparative perspective on the current state of social problems and deviance in a variety of societies around the world Editor George Ritzer along with leading U S and international sociologists examines the relationship between social problems and a society s level of development and affluence The essays in this volume focus on four interrelated issues involved in the relationship between social problems and the level of development and affluence Less developed and less affluent societies are more likely to experience a range of social problems than developed and affluent societies Affluence causes or at least brings with it a series of social problems that do not exist in less affluent societies It is only with affluence that certain things can come to be imagined as social problems such as excessive consumption The very affluence of a society makes it vulnerable to problems that would not be social problems in poorer societies The Handbook explores the theory of the weakness of the strong in other words strong or wealthy nations may have greater vulnerability to some social problems than less developed or affluent societies This theory is clearly illustrated in this volume by the aftermath of September 11 2001 depicting the vulnerability of the U S to social problems in far removed corners of the world In addition the international and comparative essays in this volume cover other important issues such as the impact of modern technologies on social problems ecological problems global inequality health as a social problem and much more The Handbook of Social Problems is a vital resource for sociologists and graduate students as well as an excellent addition to any academic library *Power, Resistance and*

Conflict in the Contemporary World Athina Karatzogianni, Andrew Robinson, 2009-10-16 Examines the operation of network forms of organization in social resistance movements in relation to the integration of the world system the intersection of networks and the possibility of social transformation

Hegemonic Decline Jonathan Friedman, Christopher Chase-Dunn, 2016-01-08 Although the United States is currently the world's only military and economic superpower the nation's superpower status may not last The possible futures of the global system and the role of U.S. power are illuminated by careful study of the past This book addresses the problems of conceptualizing and assessing hegemonic rise and decline in comparative and historical perspective Several chapters are devoted to the study of hegemony in premodern world systems And several chapters scrutinize the contemporary position and trajectory of the United States in the larger world system in comparison with the rise and decline of earlier great powers such as the Dutch and British empires Contributors Kasja Ekholm Johnny Persson Norihisa Yamashita Giovanni Arrighi Beverly Silver Karen Barkey Jonathan Friedman Christopher Chase Dunn Rebecca Gies Andrew Jorgenson John Rogers Shoon Lio Thomas Reifer Peter Taylor Albert Bergesen Omar Lizardo Thomas D. Hall

Indigenous Peoples and Globalization Thomas D. Hall, James V. Fenelon, 2015-12-03 The issues native peoples face intensify with globalization Through case studies from around the world Hall and Fenelon demonstrate how indigenous peoples' movements can only be understood by linking highly localized processes with larger global and historical forces The authors show that indigenous peoples have been resisting and adapting to encounters with states for millennia Unlike other antiglobalization activists indigenous peoples primarily seek autonomy and the right to determine their own processes of adaptation and change especially in relationship to their origin lands and community The authors link their analyses to current understandings of the evolution of globalization

Overcoming Global Inequalities Immanuel Wallerstein, Christopher Chase-Dunn, Christian Suter, 2015-11-17 This book examines the changing nature of global inequalities and efforts that are being made to move toward a more egalitarian world society The contributors are world historical sociologists and geographers who place the contemporary issues of unequal power wealth and income in a global historical perspective The geographers examine the roles of geopolitics and patterns of warfare in the historical development of the modern world system and the sociologists examine endeavours to improve the situations of poor peoples and nations and to engage the challenges of sustainability that are linked with global inequalities *Overcoming Global Inequalities* contains cutting edge research from engaged social scientists intended to help humanity deal with the challenges of global inequality in the 21st century

Emerging Issues in the 21st Century World-system: New theoretical directions for the 21st century world-system Wilma A. Dunaway, 2003 As one half of the latest edition of Immanuel Wallerstein's *Political Economy of the World System* series this collection offers cutting edge theoretical directions to explain the structural crises of the 21st century world system Contributors argue that the capitalist world system has reached a critical bifurcation point a short period which will be characterized by a sudden shift in the long term structural forces that have created and sustained

the world as we know it Writers challenge conventional thinking about the most significant structural crises that face the 21st century world system including terrorism debt the growth of megacities as global actors the emergence of a powerful transnational capitalist class and the world ecological crisis **Mass Migration in the World-system** Terry-Ann Jones, Eric Mielants, 2010 Brings to light the experiences of migrants across the world by engaging wide ranging ideas and theoretical viewpoints of the migration process **Latin@s in the World-system** Ramón Grosfoguel, Nelson Maldonado Torres, José David Saldívar, 2005 Addresses the potential of diverse Latino a spiritualities origins and status against the landscape of decolonization of the US economic and cultural empire in the twenty first century This book explores the impact of Indo latinos and Afro latinos in the United States **Appalachian Journal** ,2003 A regional studies review **Poverty and Neoliberalism** Ray Bush, 2007-05-25 A critique of the way powerful institutions support economics and politics that sustain poverty and keep the rich in power **Cultures of Globalization** Kevin Archer, 2008 Previously published as a special issue of Globalizations this book brings together researchers from different disciplines with the common goal of exploring the emerging cultural relations among groups and individuals in terms of coherence and hybridity identity and allegiance and cooperation and conflict *Systems of Innovation and Development* José Eduardo Cassiolato, Helena Maria Martins Lastres, Maria Lucia Maciel, 2003 Confronting the challenges and opportunities of the knowledge era this text focuses particularly on the new conditions for industrial and technological development The contributors address many of the most significant issues including the globalizing learning economy the finance dominated accumulation regime learning and development divides systems of innovation and local productive arrangements They also define the conceptual and methodological instruments which can be used to analyse and understand the core issues of learning knowledge and innovation In doing so they demonstrate the value of the systems of innovation approach in the design and implementation of strategic development policies which are urgently required in many countries **The Writers Directory** ,2013
