Crisis Of Empire:

The War Machine David Drake, Roger MacBride Allen, 1989 The Empire had ruined Captain Allison Spencer's life forcing his wife into the bed of another man and leaving him a junkie but an alien threat requires that it rehabilitate him **The Crisis of the Twenty-First Century** Russell Foster, 2017-07-05 Empire is one of the oldest forms of political organisation and has dominated societies in all parts of the world Yet despite the emergence of nation states in the eighteenth and nineteenth centuries and the apparent end of empire with the breakup of European colonial regimes and the Soviet Union in the twentieth century empire remains powerful in the modern world The EU's accession policies the United States War on Terror China's economic developments in Africa among others draw accusations of imperial agendas Empire is no stranger to crisis but in recent years the effects of global austerity have forced states both powerful and weak to adapt with varying degrees of success and failure The confusions contradictions and contestations which emerge from imperial crisis point to a vital question how is Austerity changing Empire and how will this shape tomorrow's world This book was published as a special issue of *Global Discourse* **Crises of Empire** Martin Thomas, Bob Moore, Larry Butler, 2015-04-23 Crises of Empire offers a comprehensive and uniquely comparative analysis of the history of decolonization in the British French and Dutch empires By comparing the processes of decolonization across three of the major modern empires from the aftermath of the First World War to the late 20th century the authors are able to analyse decolonization as a long term process They explore significant changes to the international system shifting popular attitudes to colonialism and the economics of empire This new edition incorporates the latest developments in the historiography as well as Increased coverage of the Belgian and Portuguese empires New introductions to each of the three main parts offering some background and context to British French and Dutch decolonization More coverage of cultural aspects of decolonization exploring empire from below This new edition of Crises of Empire is essential reading for all students of imperial history and decolonization In particular it will be welcomed by those who are interested in taking a comparative approach putting the history of decolonization into a pan European framework **The British Army and the Crisis of Empire, 1918-22** Keith Jeffery, 1984 The empire at war Weakness of the home base Imperial problems old and new Searching for imperial manpower The Irish ulcer India The defence of Suez Persia and Mesopotamia Conclusion **An Honorable Defense** David Drake, Thomas T. Thomas, 1988 The first Crisis of Empire begins with the death of the Emperor leaving a child as his successor Will the leaders of the empire rally behind the child Emperor If they do not interstellar civilization will once again dissolve into civil war and slide into another long night of barbarism **Metternich** Wolfram Siemann, 2019-11-05 A compelling new biography that recasts the most important European statesman of the first half of the nineteenth century famous for his alleged archconservatism as a friend of realpolitik and reform pursuing international peace Metternich has a reputation as the epitome of reactionary conservatism Historians treat him as the archenemy of progress a ruthless aristocrat who used his power as the dominant

European statesman of the first half of the nineteenth century to stifle liberalism suppress national independence and oppose the dreams of social change that inspired the revolutionaries of 1848 Wolfram Siemann paints a fundamentally new image of the man who shaped Europe for over four decades He reveals Metternich as more modern and his career much more forward looking than we have ever recognized Clemens von Metternich emerged from the horrors of the Revolutionary and Napoleonic wars Siemann shows committed above all to the preservation of peace That often required him as the Austrian Empire's foreign minister and chancellor to back authority He was as Henry Kissinger has observed the father of realpolitik But short of compromising on his overarching goal Metternich aimed to accommodate liberalism and nationalism as much as possible Siemann draws on previously unexamined archives to bring this multilayered and dazzling man to life We meet him as a tradition conscious imperial count an early industrial entrepreneur an admirer of Britain's liberal constitution a failing reformer in a fragile multiethnic state and a man prone to sometimes scandalous relations with glamorous women Hailed on its German publication as a masterpiece of historical writing Metternich will endure as an essential guide to nineteenth century Europe indispensable for understanding the forces of revolution reaction and moderation that shaped the modern world

Crisis of the British Empire David Nicholson, 2017 In 1880 the British empire was at its peak of stability no other people not Rome nor Spain nor Russia had spread their power so substantially over all five continents And yet within less than a century the vast imperial system had crumbled leaving the Commonwealth as the mere ghost of its predecessor in this groundbreaking new study David Nicholson asks if this decline was inevitable or had Britain's rulers taken different decisions encouraged trends or sought to prevent them whether the strength and cohesion of the empire could have been maintained He examines in particular a series of turning points which he believes to have been crucial to this process the failure to deal with Irish Home rule over extension in Africa the failure to adopt Tariff reform the British inability to reach an accommodation with Germany before the first World War the strategic and tactical mistakes of the great War culminating in overextension in the Middle East and ignoring of warnings about a one sided interpretation of the Balfour Declaration the errors in the build up to the second World War and its opening phase especially those leading to the break with Japan and Italy David Nicholson traces the real damage done by the 1939-45 War leading to the final collapse of British power in India then the Middle East and finally in Africa as well as the weakening of the links with the old Commonwealth He asks provocatively if the empire had not failed would Britain have been so attracted by membership of the European Community

Crisis of the British Empire Turning Points After 1880 is a significant contribution to imperial studies and should be required reading for anyone wishing to understand Britain's position in the world on the brink of Brexit

Celebrating Canada

Mathew Hayday, Raymond B. Blake, 2017-01-06 Holidays are a key to helping us understand the transformation of national regional community and ethnic identities In *Celebrating Canada* Matthew Hayday and Raymond Blake situate Canada in an international context as they examine the history and evolution of our national and provincial holidays and annual celebrations The contributors to this volume examine such holidays as Dominion Day Victoria Day Quebec s F te Nationale and Canadian Thanksgiving among many others They also examine how Canadians celebrate the national days of other countries like the Fourth of July and how Dominion Day was observed in the United Kingdom Drawing heavily on primary source research and theories of nationalism identities and invented traditions the essays in this collection deepen our understanding of how these holidays have influenced the evolution of Canadian identities Official Reports of the Debates of the House of Commons of the Dominion of Canada Canada. Parliament. House of Commons, 1909 **Empires of Sustainability** Joseph Murphy, 2024-06-07 Focussing on the greening of imperialisms and empires *Empires of Sustainability* analyses the shift around the world from denial of the environmental crisis to action to prevent catastrophe and the resulting implications Evidence of this shift is clear in widespread and purposeful social change which is gathering momentum The book explains how globalisation accelerated us towards the crisis and today even as its own legitimacy is being questioned is evolving through solutions and responses to it Looking ahead and as the environmental crisis worsens two possible futures are discerned and explored One is that through universal actions to save the planet shaped by interweaving political and economic forces the hegemony of globalisation is restored albeit in a green form The other is that the world reorganises into competing spheres of influence with politics economics and the environment interwoven differently in each case In these ways we face the prospect of one or more Empires of Sustainability emerging over the decades ahead unless we build a better alternative society The author presents an alternative a more diverse World of Caring Places This accessible book will appeal to students and scholars of international political economy sustainability and environmental studies and analysts policy makers campaigners and others concerned about the future of relations between people and planet *House of Commons Debates, Official Report* Canada.
