Crisis And Political Beliefs The Case Of The Colt Firearms Strike:

Crisis and Political Beliefs Marc Lendler,1997-01-01 Does the political thinking of ordinary citizens change during periods of crisis Marc Lendler addresses this question by investigating the story behind an unusually prolonged and ultimately successful strike a five year conflict at the Colt Firearms Company in Hartford Connecticut in the 1980s Lendler documents how the participants political consciousness evolved during this period showing what they thought about American politics and institutions

A Strike Like No Other Strike Richard A. Brisbin,2002-09-06 Supreme Court ultimately ruled in favor of the union most of the strikers faced elimination of their jobs and an ongoing struggle for pensions and health benefits

The Politics of Identity Erin E. O'Brien,2008-07-08 Conventional wisdom believes that solidarity among the working poor is rare in the United States and identity politics shoulders a large portion of the blame The Politics of Identity offers a fresh take on solidarity building and identity among America s working poor by placing workers voices center stage through the use of fieldwork and in depth interviews The book provides the first empirical assessment of long standing theoretical debates over the effect of identity politics for developing additional solidarities that is politically relevant theoretically rich and highly readable

The Broken Table Chris Rhomberg,2012-04-13 When the Detroit newspaper strike was settled in December 2000 it marked the end of five years of bitter and violent dispute No fewer than six local unions representing 2 500 employees struck against the Detroit News the Detroit Free Press and their corporate owners charging unfair labor practices The newspapers hired permanent replacement workers and paid millions of dollars for private security and police enforcement the unions and their supporters took their struggle to the streets by organizing a widespread circulation and advertising boycott conducting civil disobedience and publishing a weekly strike newspaper In the end unions were forced to settle contracts on management s terms and fired strikers received no amnesty In The Broken Table Chris Rhomberg sees the Detroit newspaper strike as a historic collision of two opposing forces a system in place since the New Deal governing disputes between labor and management and decades of increasingly aggressive corporate efforts to eliminate unions As a consequence one of the fundamental institutions of American labor relations the negotiation table has been broken Rhomberg argues leaving the future of the collective bargaining relationship and democratic workplace governance in question The Broken Table uses interview and archival research to explore the historical trajectory of this breakdown its effect on workers economic outlook and the possibility of restoring democratic governance to the business labor relationship Emerging from the New Deal the 1935 National Labor Relations Act protected the practice of collective bargaining and workers rights to negotiate the terms and conditions of their employment by legally recognizing union representation This system became central to the democratic workplace where workers and management were collective stakeholders But efforts to erode the legal protections of the NLRA began immediately leading to a parallel track of anti unionism that began to gain ascendancy in the 1980s The Broken Table shows how the tension created by these two opposing

forces came to a head after a series of key labor disputes over the preceding decades culminated in the Detroit newspaper strike. Detroit union leadership charged management with unfair labor practices after employers had unilaterally limited the unions ability to bargain over compensation and work conditions. Rhomberg argues that in the face of management claims of absolute authority the strike was an attempt by unions to defend workers rights and the institution of collective bargaining and to stem the rising tide of post 1980s anti unionism. In an era when the incidence of strikes in the United States has been drastically reduced the 1995 Detroit newspaper strike stands out as one of the largest and longest work stoppages in the past two decades. A riveting read full of sharp analysis *The Broken Table* revisits the Detroit case in order to show the ways this strike signaled the new terrain in labor management conflict. The book raises broader questions of workplace governance and accountability that affect us all.

Culture Wars and Local Politics Elaine B. Sharp, 1999 This collection offers alternative explanations of local actions with a focus on conflict. It features examples of experiences selected from various cities. It examines how the responses of local governments to specific issues are influenced by such factors as political culture and institutions.

The Changing Educational Quality of the Workforce Robert Zemsky, Peter Cappelli, 1998

Ramparts of Resistance Sheila Cohen, 2006-09-20 *Ramparts of Resistance* examines the experience of British and US workers during the last three decades to show the urgency of the need for a new independent politics of trade unionism. The twentieth century saw great changes in the trade union movement from waves of strikes in the 1970s to a battery of employer and state onslaughts culminating in the anti union legislation of the 1980s and 1990s. Looking at grassroots labour struggles Cohen explores issues of reformism, trade union democracy and the political meaning of ordinary workplace resistance and puts forward ideas for change. *Ramparts of Resistance* examines the failure of the union movement to rise to the neo liberal challenge and calls for a new politics of independent unionism and an explicitly class based renewal of workers power. Coming at a time when union activity and membership involvement continues despite the odds this book is an inspiring guide to the direction that unionism should take.

Analyzing Documentary Accounts Randy Hodson, 1999-07-16 Although ethnographic evidence has accumulated in fields ranging from organizational studies to sociology these studies have not been fully exploited except as sources of descriptive data. *Analyzing Documentary Accounts* provides researchers with complete guidelines from mining ethnographic data through the use of new analytic techniques. Readers will find *Analyzing Documentary Accounts* the key to unlocking the rich data sources available in ethnographic material. Using examples from human relations and Hodson's workplace files author Randy Hodson explains the benefits and limitations of the quantitative analysis of extant bodies of ethnographic evidence, ways to do reliability and validity checks, methods for coding the data, methods for analyzing multiple ethnographic studies and suggestions for effectively combining qualitative and quantitative methodologies.

Handbook of Community Movements and Local Organizations in the 21st Century Ram A. Cnaan, Carl Milofsky, 2018-05-22 This new handbook builds on *The Handbook of Community Movements and Local*

Organizations published in 2007 and is the only resource defining the field of study related to small nonprofit organizations and to studying communities from the standpoint of associations that make up communities It explores the history and conceptualizations of community theoretical concepts in community organizations social movements ranging from health to crime and community practice methods Further it provides authoritative statements of major theory areas gives examples of different sub areas of the field provides guidance to people working as practitioners in the field and nicely coincides with the increasing interest in clinical sociology This handbook is of great interest to academics students and practitioners with an interdisciplinary resource to understand and collaborate in work with contemporary communities

Political Science Quarterly, 1998 Vols 4 38 40 41 include Record of political events Oct 1 1888 Dec 31 1925 issued as a separately paged supplement to no 3 of v 31 38 and to no 1 of v 40

Index to Volumes I-xlv. 1886-1930, 1931 A review devoted to the historical statistical and comparative study of politics economics and public law

What's Wrong with America? Jonathan Neale, 2004 For the 30 million people who marched against the war in Iraq there has long been a suspicion that all is not well with the world and in particular the USA Jonathan Neale s critique shows that what the US does to the rest of the world it is also doing to its own people
