The Prospect of Presidential Rhetoric James Arnt Aune, Martin J. Medhurst, 2008 Culminating a decade of conferences that have explored presidential speech The Prospect of Presidential Rhetoric assesses progress and suggests directions for both the practice of presidential speech and its study In Part One following an analytic review of the field by Martin Medhurst contributors address the state of the art in their own areas of expertise Roderick P Hart then summarizes their work in the course of his rebuttal of an argument made by political scientist George Edwards that presidential rhetoric lacks political impact Part Two of the volume consists of the forward looking reports of six task

forces comprising more than forty scholars charged with outlining the likely future course of presidential rhetoric as well as the major questions scholars should ask about it and the tools at their disposal *The Prospect of Presidential Rhetoric* will serve as a pivotal work for students and scholars of public discourse and the presidency who seek to understand the shifting landscape of American political leadership *The Rhetorical Presidency, Propaganda, and the Cold War, 1945-1955* Shawn J. Parry-Giles, 2002 Both Truman and Eisenhower combined bully pulpit activity with presidentially directed messages voiced by surrogates whose words were as orchestrated by the administration as those delivered by the presidents themselves A Review of the private strategizing sessions concerning propaganda activity and the actual propaganda disseminated by the Truman and Eisenhower administrations reveals how they both militarized propaganda operations allowing the president of the United States to serve as the commander in chief of propaganda activity As the presidents minimized congressional control over propaganda operations they institutionalized propaganda as a presidential tool expanded the means by which they and their successors could perform the rhetorical presidency and increased presidential power over the country's Cold War message naturalizing the Cold War ideology that resonates yet today Of particular interest to scholars and students of political communication the modern presidency and Cold War history **Spirits of the Cold War** Ned O'Gorman, 2012 In spring of 1953 newly elected President Eisenhower sat down with his staff to discuss the state of American strategy in the cold war America he insisted needed a new approach to an urgent situation From this meeting emerged Eisenhower's teams of bright young fellows charged with developing competing policies each of which would come to shape global politics In *Spirits of the Cold War* Ned O'Gorman argues that the early Cold War was a crucible not only for contesting political strategies but also for competing conceptions of America and its place in the world Drawing on extensive archival research and wide reading in intellectual and rhetorical histories this comprehensive account shows cold warriors debating worldviews in addition to more strictly instrumental tactical aims *Spirits of the Cold War* is a rigorous scholarly account of the strategic debate of the early Cold War a cultural diagnostic of American security discourse and an examination of its origins *Argumentation and Advocacy*, 2001 *The Presidency and Rhetorical Leadership* Leroy G. Dorsey, 2002 Twelve leading scholars provide in depth studies of how words have failed or served American presidents Following on from an introduction to the themes each succeeding chapter examines a particular president **Rhetoric, Religion, and the Roots of Identity in British Colonial America** James Robertson Andrews, 2007 Volume 1 of the *Rhetorical History of the United States* series probes formal and ideational aspects of colonial rhetoric to illuminate textual contextual interactions and their enduring implications for American rhetoric Topics such as millennialism religious freedom and toleration covenant theology revivalism and the British heritage of American colonial rhetoric are explored By examining sermons forensic speaking theological treatise literary traditions prayers poems and other rhetorical artifacts these essays help to illuminate the sources of American identity as that identity was formed through the theory and practice of rhetoric **The Journal of Military**
