The Critical Way in Religion Duncan Howlett, 1980 In The Critical Way in Religion Duncan Howlett proposes a new approach to the age old question of religious belief According to the author authority and tradition cannot provide adequate answers for religion nor can modern liberalism These approaches fail to come to terms with the problems of human error and the need for innovation Organized religion has not subjected its claim to know eternal truth to the severe testing accepted in all other disciplines and has been highly resistant to the introduction of new practices and patterns of thought The Critical Way in Religion identifies a religious tradition older than Christianity and at least as old as Judaism that has taken human fallibility and human resourcefulness fully into account The author traces the evolution of this tradition from its beginning in Greece in the sixth century B C and shows how its characteristic principles have developed Today although worldwide in scope but by no means universally accepted the critical approach to religion is found inside as well as outside organized religion among churchgoers and among the supposedly nonreligious as well Howlett maintains that the critical tradition in religion developed independent of the Judeo Christian tradition but that the two are closely related The critical tradition has its heroes its martyrs and a growing body of thought but as yet no name and no church fully committed to it Although the modern worldwide university system is the critical spirit institutionalized it is primarily nonreligious This book calls for the institutionalizing of the critical spirit in religion and concludes with a set of clear and positive yet critical religious principles Back cover

The Quest, 1914

Secular Utilitarianism James E. Crimmins, 1990 Jeremy Bentham was an ardent secularist convinced that society could be sustained without the support of religious institutions or beliefs This

is writ large in the commonly neglected books on religion he wrote and published during the last twenty five years of his life. However his earliest writings on the subject date from the 1770s when as a young man he first embarked on his calling as a legal theorist and social reformer. From that time on religion was never far from the centre of his thoughts. In *Secular Utilitarianism* James Crimmins illustrates the nature, extent and depth of Jeremy Bentham's concern with religion from his Oxford days of first doubts to the middle years of quiet unbelief and finally the zealous atheism and secularism of his later life. Dr Crimmins provides an interpretation of Bentham's thought in which his religious views hitherto of little interest to Bentham scholars are shown to be integral on the one hand intimately associated with the metaphysical, epistemological and psychological principles which gave shape to his system as a whole and on the other central to the development of his entirely secular view of society.

Towards a Spiritual Humanism Hasan Askari, Jon Avery, 1991

Africa's Social and Religious Quest Randee Ijatuyi-Morphé, 2014-01-30. This well-crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing African situation, the starting point for grasping Africa's social and religious quest. Beyond split explanations of external versus internal factors (e.g. colonization, slavery vs. leadership, cultural values), this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture which hitherto defines African communality, politics and destinies vis-à-vis the cosmos and nature. Thus African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of post-modernity. Rather they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture, leaving things as they are. This study takes an integrative approach to religion, society and civilization, eschews dichotomies and broadly defines and re-signifies life and wholeness as a true end of Africans' quest today.
