

The background of the entire cover is a photograph of a person walking away from the viewer down a dirt path in a forest. The path is flanked by tall, thin trees, and the ground is covered in fallen leaves. The lighting is soft, suggesting a misty or overcast day. The person is a small figure in the distance, centered on the path.

Science Fiction: Its Criticism and Teaching Patrick Parrinder,2021-05-18 This book first published in 1980 examines issues such as the definition of the genre its function as social criticism and as an embodiment and critique of the scientific outlook In order to work towards a more comprehensive view of the genre the author analyses science fiction by turns as a mode of popular literature as a socially responsible and quasi realistic form of writing and as a home for a fantastic and parodic use of language How much are future histories to name but one type of SF the answer to a frustration of the epic impulse These questions and more are closely examined in this lively and informative book

Theological Science Thomas F. Torrance,1996-01-01 The classic study which establishes a sound theological base for the future of philosophical science **Theological Encyclopaedia and Methodology** George Richard Crooks,John Fletcher Hurst,Karl Rudolf Hagenbach,1894 **Science Fiction** Patrick Parrinder,2013-10-08 First Published in 2002 This volume is about Science Fiction its criticisms and teaching and covers the rise of science fiction as a study and genre looking at the work of H G Wells and the themes of epic fable language cultures its sociology as a romance and of a working daydream

Theology and the Philosophy of Science Wolfhart Pannenberg,1976 This major work by one of the world s best known theologians is a unique contribution in bringing theology into solid dialogue with the scientific disciplines Professor Pannenberg develops the position that the scientific method is as applicable to theology as it is to other spheres of intellectual reflection He discusses the nature of science and scientific explanation and defines the sense in which theology is a science Professor Pannenberg then speaks of Christian theology as a branch of the theology of religion and calls upon Christian thinkers to search for truth in less traditional bound and presumptuous ways than they have in the past This book demonstrates that Pannenberg believes in a unitary way of knowledge Here he defines both the theologians and the secular thinkers who believe that theological discourse is in some special way privileged exempt from the universally accepted Western methods or reasoning His argument is provocative to theologians of a different bent and challenges secular thinkers to take as rational propositions Christian theology s truth claims With this book Professor Pannenberg places himself centrally and unequivocally in the secular academic community and rescues theology from its privileged marginality in modern intellectual discourse Publisher
