Crobborder Trade And The Parallel Currency Marke:

Cross-border Trade and the Parallel Currency Market Yahaya Hashim, Kate Meagher, 1999 The authors of this study challenge the assumptions of the World Bank that the expansion in informal cross border trade is a vindication of the market liberalizing thrust of structural adjustment and that adjustment policies have improved the effectiveness of an independent bourgeoisie that is emerging out of this trade as an agent of regional integration Instead they make the case for the adoption of what they call a development approach for tapping the benefits of the informal currency markets as an alternative to the market coercion of structural adjustment

Women Without Borders V. N. Muzvidziwa, 2005 In the face of a declining and collapsing national economy this book presents the story of enterprising and entrepreneurial Zimbabwean women operating as informal cross border traders in the SADC region The women are struggling against economic wants and deprivation and devising their own initiatives to defeat poverty The study relates their hopes perceptions and strategies for managing the structural constraints at micro and macro levels that at once make their activities necessary and simultaneously impose limitations on them **Gulliver's Troubles** Adekeye Adebajo, Abdul Raufu Mustapha, 2008 Gulliver's Troubles offers the first comprehensive assessment of the post Cold War foreign policy of Nigeria one of Africa's most important states Expert contributors comprising academics and scholar diplomats analyze Nigeria's most vital domestic challenges and critical regional issues from historical and contemporary perspectives Nigeria's relations with its neighbors other significant states and regional and international bodies also come under scrutiny The debates here while multifaceted share the premise that an effective foreign policy must be built on a sound domestic base and democratic stability International Labour Review, 2000 **African Development**

actors knowledge and policy spaces interact in policy making Strategies are generated and owned locally and the poor are understood as active participants in their own development The book argues that if political systems and the policy processes through which they are enacted are to be democratised then so should the knowledge base that feeds those policy processes This means working by a deliberative process not only to produce knowledge but also to incorporate knowledge of different kinds differentiating between respective roles and powers of discourse and reconstituting the prevailing cultures of legitimacy and representation Although based on evidence from Uganda and Nigeria the book is conceived to have application to the struggle against poverty more widely Journal of Borderlands Studies ,2009 **Development**
