Cross-Cultural Business Communication Sven Rosenhauer, 2009 La 4 de couv indique The purpose of the present thesis is to examine if and to which extent cultures converge in an international business environment and if intercultural competence has a bearing on it Therefore theoretical and practical insights in the subject of culture its implicit and explicit differences as well as its measurements will be proved Cross-cultural Communication Thomas Warren, 2017-03-02 Cross Cultural Communication is a collection of essays that examines how practitioners can improve the acceptance of their documentation when communicating to cultures other than their own The essays begin by examining the cross cultural issues relating to quality in documentation From there the essays look at examples of common documents analysing them from several perspectives Specifically the author uses communication theories such as Bernstein s Elaborated and Restricted Code theory and Marwell and Schmidt s Compliance Gaining theory to show how documents used by readers who are not native speakers of English can be written and organized to increase their effectiveness The principal assumption about how practitioners create their documents is that while large organizations can afford to write translate and then localize small to medium size organizations produce many documents that are used directly by people in other cultures often without translating and localizing The advantage the writer gains from these essays is in understanding the strategies and knowing the kinds of strategies to apply in specific situations In addition the essays can serve as a valuable resource for students and teachers alike as they determine ways to understand how cross cultural communication is different and why it makes a difference Not only do students need to be aware of the various strategies they may apply when creating documents for cross cultural settings they also need to see how research can apply theories from different areas in the case of these essays

communication and rhetorical theories Another value of the essays is to show the students the role standards play in cross cultural communication standards are written by committees that follow style rules developed by the International Standardization Organization in Geneva Thus both students and practitioners can find valuable cross cultural communication advice in these essays Cross Cultural Communication. The Lewis Model and the Differences between Cultures, 2019-12-30 Seminar paper from the year 2018 in the subject Communications Intercultural Communication grade 1 7 University of Applied Sciences Bielefeld language English abstract The aim of this work is to explain the construct of cross cultural communication using the Richard D Lewis model and to analyze the differences between cultures Intercultural communication is often associated with problems misunderstandings and prejudices In order to smooth communication and to understand the cultures of other countries there are countless models that try to condense cultural behaviour While some researchers have looked at geographical divisions like north south east and west others classified people by religion Muslim Christian Hindu or even by race African Indian Arab But how do you define the east How do you classify a person that is African Arab Lewis seems to have found a solution to the problem by developing the culture type model in 1996 There are three types of cultures and each nation is analyzed and assigned in detail Since it is represented as a triangle hybrid types are also possible The present work focuses on this model A German who is constantly punctual a Mexican who always interrupts one or a Japanese who doesn't keep eye contact during the conversation All these are examples of cultural behavior While the Mexican can't understand why a German has to leave the meeting at four o'clock on the dot the Japanese finds it impolite that the Mexican won't let anyone finish the sentence One often only becomes aware of cultural characteristics and specialties when you move within another culture These kinds of cross cultural relations only exist as a result of globalization the internationalization of markets and new communication technologies Today almost everyone is able to communicate and collaborate with people from all over the world These developments show that intercultural communication and competence is becoming an increasingly important topic Hardly any large company operates only in its own country If one wants to make profit one has to offer one's products not only in one's home country but all over the world It is essential to know the cultural values and behaviors of other nations to be successful in other markets Also political and economic associations like the EU or NAFTA support international collaboration and it is seen as essential and desirable

Barriers to Cross Cultural Communication Kathrin Kutz,2012-01-27 Seminar paper from the year 2011 in the subject Business economics Business Management Corporate Governance grade 1 3 University of Applied Sciences S dwestfalen Hagen language English abstract Nowadays we talk and hear about the big topics like Globalisation Internationalisation of markets and New Technologies for Communication In our today s world boundaries between states as well as big distances between particular states do not play a big role anymore Nearly everyone is able to get in connection with everyone he likes to not matter what country he lives in what time it is or with whom he likes to talk This development leads to the arising importance of Cross Cultural Communication Think ing about business for example most of all existing companies operate all around the world by now If a salesman from England wants to make profit he will have to offer his products not only in his home country he also will have to offer them in Japan and Germany So for doing his job he has to communicate across cultures It is the same in many other branches like politics or movie makers for instance It is an evident aspect that communicating across cultures is associated with problems and barriers to communication The first big problem getting in mind is the language itself because two communication partners must own one language which both of them are able to speak
