## **Crossbow Overcast:**

Crossbow and Overcast James McGovern, 1964 The dramatic story of Hitler's secret weapon the V 2 rocket and the struggle between the United States Britain and Russia to capture the scientists who built it Spies, Lies, and Citizenship Mary Kathryn Barbier, 2017-10 In the 1970s news broke that former Nazis had escaped prosecution and were living the good life in the United States Outrage swept the nation and the public outcry put extreme pressure on the U S government to investigate these claims and to deport offenders The subsequent creation of the Office of Special Investigations marked the official beginning of Nazi hunting in the United States but it was far from the end Thirty years later in November 2010 the New York Times obtained a copy of a confidential 2006 report by the Justice Department titled The Office of Special Investigations Striving for Accountability in the Aftermath of the Holocaust The six hundred page report held shocking secrets regarding the government's botched attempts to hunt down and prosecute Nazis in the United States and its willingness to harbor and even employ these criminals after World War II Drawing from this report as well as other sources Spies Lies and Citizenship exposes scandalous new information about infamous Nazi perpetrators including Andrija Artukovi Klaus Barbie and Arthur Rudolph who were sheltered and protected in the United States and beyond and the ongoing attempts to bring the remaining Nazis such as Josef Mengele to justice **This New Ocean** William E. Burrows, 2010-09-29 It was all part of man's greatest adventure landing men on the Moon and sending a rover to Mars finally seeing the edge of the universe and the birth of stars and launching planetary explorers across the solar system to Neptune and beyond The ancient dream of breaking gravity's hold and taking to space became a reality only because of the intense cold war rivalry between the superpowers with towering geniuses like Wernher von Braun and Sergei Korolyov shelving dreams of space travel and instead developing rockets for ballistic missiles and space spectacles Now that Russian archives are open and thousands of formerly top secret U S documents are declassified an often startling new picture of the space age emerges the frantic effort by the Soviet Union to beat the United States to the Moon was doomed from the beginning by gross inefficiency and by infighting so treacherous that Winston Churchill likened it to dogs fighting under a carpet there was more than science behind the United States suggestion that satellites be launched during the International Geophysical Year and in one crucial respect Sputnik was a godsend to Washington the hundred odd German V 2s that provided the vital start to the U S missile and space programs legally belonged to the Soviet Union and were spirited to the United States in a derring do operation worthy of a spy thriller despite NASA's claim that it was a civilian agency it had an intimate relationship with the military at the outset and still does a distinction the Soviet Union never pretended to make constant efforts to portray astronauts and cosmonauts as Boy Scouts were often contradicted by reality the Apollo missions to the Moon may have been an unexcelled political triumph and feat of exploration but they also created a headache for the space agency that lingers to this day This New Ocean is based on 175 interviews with Russian and American scientists and engineers on archival

documents including formerly top secret National Intelligence Estimates and spy satellite pictures and on nearly three decades of reporting The impressive result is this fascinating story the first comprehensive account of the space age Here are the strategists and war planners engineers and scientists politicians and industrialists astronauts and cosmonauts science fiction writers and journalists and plain ordinary unabashed dreamers who wanted to transcend gravity's shackles for the ultimate ride The story is written from the perspective of a witness who was present at the beginning and who has seen the conclusion of the first space age and the start of the second

### **The Origins of Surface-to-Air Guided Missile**

**Technology** James Mills, 2024-01-05 Author James Mills presents an amazing detailed history review of the German surface to air guided missile technology development Military Review World War II saw the appearance of numerous revolutionary armaments on both sides of the conflict that would radically change the nature of warfare from jet aircraft to the ballistic missile and the atomic bomb The greatest conflagration in history also saw the conception of the first surface to air guided missile systems technology pioneered by German scientists and engineers through an extensive development program which ran from 1942 to 1945 Although the program did not achieve its main objective to introduce a functional weapon system into the Luftwaffe air defense network German research and development in most aspects of the technology was ahead of comparable research in the United Kingdom and the United States The history of the transfer of German SAM technology to the Allies after 1945 has previously been overshadowed by the well published transfers of the V 1 and V 2 guided missiles This book presents the first complete history of Germany's wartime development of surface to air missile SAM technology how the Allies acquired this secret research towards the end of World War II in Europe and in the early postwar period and how they then exploited this knowledge

### **Race to the Moon**

William B. Breuer, 1993-07-27 Even while the fighting was still raging in Germany in the spring of 1945 a handful of young U S Army officers scored a colossal coup They connived to steal 100 of the huge V 2s that had been found in an underground factory They were dismantled and slipped by train out of Germany destination White Sands New Mexico

### The Amtrak Wars: Cloud Warrior

Patrick Tilley, 2012-12-03 Hundreds of years after civilisation has been destroyed by nuclear war the Earth is divided between the Trackers of the Amtrak Federation a community living in vast subterranean cities and the Mutes who have evolved to withstand the radiation that has driven their foes underground A long war for possession of the overground has killed and enslaved many of the Mutes leaving only the Plainfolk to resist the Federation The Mutes physical strength and tribal way of life is no match for the advanced weaponry that is used against them Mr Snow supernaturally gifted wordsmith of the Mute clan M Call is the Plainfolk's last hope in withstanding the onslaught of the sand burrower's attacks Seventeen year old rookie wingman Steve Brickman is just about to graduate from Flight Academy Safe in the knowledge of his own brilliance his future seems assured As a member of the Tracker society Brickman has grown up deep underground protected from the radiation of the blue sky world above The lure of this open space fills him with both fear and excitement as he anticipates piloting his first mission

against the sub human Mutes But all does not go as smoothly as planned as the clan M Call kidnaps Steve and puts him under the strange tutelage of the mysterious Mr Snow Captivated by the beautiful Clearwater and befriended by the stoic Cadillac Brickman soon discovers that there is more to the Mutes than his masters would have him believe Eyes now open to the Mute s humanity Brickman is torn by a painful divided loyalty And now it seems he has become embroiled in an ancient Mute prophecy that of the Talisman the one who will save them all Cloud Warrior first published in 1983 is the first instalment of Patrick Tilley s internationally best selling science fiction epic **The Amtrak Wars Saga** **Fire Across the Desert** Peter Morton,1989 *Project Natter* Brett Gooden,2005-12-31 In 1944 in response to the bombing of German cities and factories by the Allies an inventor named Erich Bachem developed Projekt Natter Viper an extraordinary highly secret vertical take off semi expendable single seat rocket fighter armed with a nose mounted honeycomb of 73 mm or 55 mm spin stabilized air to air rockets as well as 30 mm cannon The Natter was intended to offer high speed defense of key targets Once blasted into the air from its vertical launch tower the pilot of the Natter was to climb towards an enemy formation using an internal rocket target an enemy bomber and fire his battery of rockets He would then use the remaining kinetic energy to climb higher than the bombers in order to mount a ramming attack Just before impact the pilot was to trigger a mechanism that would activate an ejection seat and separate the rocket unit which would return to earth by means of an automatically deployed parachute for reuse Relatively little has been published on the Natter and this book will provide a detailed and definitive account of this unusual but fascinating aircraft This will be required reading for all those interested in the history of the Luftwaffe during World War II particularly for those fascinated by the radical and revolutionary projects which German aircraft designers contrived toward the end of the Nazi regime Journal of the British Interplanetary Society British Interplanetary Society,1992 Bound with vol 1 1934 is the Society s annual report and list of members 1934 **The New York Times Book Review** ,1965 **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects** University of California (System).
