Crossing Cultures with Grace and Humor Joyce Sauter, Syed Zafar, 2021-02-02 Through insightful articles the founders of Cultural Diversity Group explore the cultural lenses of the world how Americans interact with those from other cultures and how we can use our cultural differences to develop better relationships Which culture is the best Which group has life figured out and which is still evolving Who has it right and why doesn't everyone else follow suit Without understanding and appreciating cultural differences we might have preconceptions about the answers to these questions when there really is no right answer Syed Zafar and Joyce Sauter explore such preconceptions in a series of articles on cultural awareness diversity and differences that shape our world and our interactions with others By taking a closer look at the varying cultures of the world they open readers eyes to the differences that make us unique and steps we can take to recognize appreciate and accept the cultures we come across In our globally connected world it is more important than ever to expand our horizons and as Syed says learn how to treat others as they would like to be treated Each article focuses on a different aspect of culture to weave a seamless narrative of awareness understanding and appreciation Think Americans don't have a culture Think again Think time is the same for everyone everywhere Not so Does the Golden Rule still apply when how you would like to be treated means different things to different people In addition to answering these questions Syed and Joyce cover topics such as Developing cultural awareness in a country where culture is often synonymous with alien Communication styles across high context and low context cultures and how direct versus indirect communication styles affect relationships Individualism in American culture and how it translates or fails to in other cultures The relationship with nature as it varies across cultures The concept of formality and how American informality is perceived globally At the end of the book you'll also find a recommended reading list to continue exploring cultural differences and hone your communication techniques Hundreds of cultures have been shaped over the centuries and to each one their way of living is the only way they know When we view other cultures as wrong backward or unevolved we fail to appreciate that they have a perspective of life we've never seen By examining and understanding cultural differences we can not only enrich our cross cultural relationships we can also enhance our own lives If you're ready to push away preconceptions and have your eyes opened to the world's cultures click add to cart
