Question Is it true that Galileo was persecuted and imprisoned by the Inquisition Answer It is alleged that Galileo was persecuted for having taught that the earth moves around the sun and this is brought forth as a proof of the Church's ignorance intolerance and fallibility and of her opposition to the progress of science Facts have been here misrepresented It is true that by order of Pope Paul V Galileo's doctrines were examined in Rome in 1610 and were condemned first by censure of the Holy Office and then by a decree of the Congregation of the Index Having promised in Rome that he would no longer defend or teach his opinions Galileo returned peacefully to Florence In 1692 he again published his theory drawing upon himself a fresh condemnation of the Holy Office with the penalty of imprisonment This penalty was afterwards commuted to that of seclusion in the gardens of Trinita del Monte Here Galileo was at liberty to receive visits and he received permission to return to his country house where he died It may be stated that the horrors of chains dungeons and tortures which he had to undergo at the hands of the Inquisition are but fables and calumny
