Columbus's Outpost Among the Taínos Kathleen A. Deagan, José María Cruxent, 2008-10-01 In 1493 Christopher Columbus led a fleet of 17 ships and more than 1200 men to found a royal trading colony in America. Columbus had high hopes for his settlement which he named La Isabela after the queen of Spain but just five years later it was in ruins. It remains important however as the first site of European settlement in America and the first place of sustained interaction between Europeans and the indigenous Tainos. Kathleen Deagan and Jose Maria Cruxent tell the story of this historic enterprise. Drawing on their ten year archaeological investigation of the site of La Isabela along with research into Columbus era documents they contrast Spanish expectations of America with the actual events and living conditions at America's first European town. Deagan and Cruxent argue that La Isabela failed not because Columbus was a poor planner but because his vision of America was grounded in European experience and could not be sustained in the face of the realities of American life. Explaining that the original Spanish economic and social frameworks for colonization had to be altered in America in response to the American landscape and the non elite Spanish and Taino people who occupied it they shed light on larger questions of American colonialism and the development of Euro American cultural identity.

[A Diderot Pictorial Encyclopedia of Trades and Industry](#) Denis Diderot (Philosoph, Schriftsteller, Frankreich), 1959 [Archaeology at La Isabela](#) Kathleen A. Deagan, José María Cruxent, 2008-10-01 In this volume Kathleen Deagan and Jose Maria Cruxent present detailed technical documentation of their ten year archaeological excavation of La Isabela, America's first colony. The artefacts and material remains of the town offer rich material for comparative research into Euro American cultural and material development during the crucial transition from the medieval era to the Renaissance. The period when La Isabela was in existence witnessed great innovation and change in many areas of technology. The archaeological evidence of La Isabela's architecture, weaponry, numismatics, pottery and metallurgy can be precisely dated, helping to chart the sequence of this change and revealing much that is new about late medieval technology. The authors' archaeological research also provides a foundation for their insights into the reasons for the demise of La Isabela.

Great Scenes from the Bible Matthaeus Merian (the Elder), 2013-05-09 Remarkably detailed illustrations depict Adam and Eve Driven Out of the Garden of Eden, The Flood, David Slaying Goliath, Christ in the Manger, The Raising of Lazarus, The Crucifixion and many other scenes. A wonderful pictorial dimension to age old stories. All 230 plates from the classic 1625 edition.
