Diderot's Chaotic Order Lester G. Crocker, 1974 **Music and the French Enlightenment** Cynthia Verba, 2017
Prompted by controversial views of the composer theorist Jean Philippe Rameau the leading figures of the French Enlightenment engaged in a vigorous philosophical debate about the nature of music Their dialogue was one of extraordinary depth and richness and dealt with some of the most fundamental issues of the French Enlightenment In the newly revised edition of *Music and the French Enlightenment* Cynthia Verba updates this fascinating story with the prolific scholarship that has emerged since the book was first published rear cover Criticism in Action Dena Goodman, 2019-05-15 Dena Goodman here offers a fresh explanation of how critical theory broke out of the mold of an earlier tradition of discourse the mirror for princes genre and shaped its own course in the eighteenth century *Criticism in Action* provides a historical analysis of French Enlightenment texts as actions and as the focus of critical activity in which writers and their potential readers participate Goodman approaches texts as forces that shape the thinking and acting of the individuals engaged in the act of reading and presents new interpretations of major Enlightenment texts by Montesquieu Rousseau and Diderot **Diderot Studies** Otis Fellows, 1963 **Living Words** Terence J. Martin, 1998 In particular Martin commends the habit of critical thinking an appreciation for irony and an irenic approach to opposition as helpful stances for improving people's efforts to talk about religion In addressing rhetorical and hermeneutical issues commonly found in philosophical theology and the philosophy of religion this work's approach through the genre of dialogue will interest those concerned with the intersection of religion and literature *Kant and the Culture of Enlightenment* Katerina Deligiorgi, 2012-02-01 Katerina Deligiorgi interprets Kant's conception of enlightenment within the broader philosophical project of his critique of reason Analyzing a broad range of Kant's works including his *Critique of Pure Reason* the *Critique of Judgment* his lectures on anthropology and logic as well as his shorter essays she identifies the theoretical and practical commitments that show the achievement of rational autonomy as an ongoing project for the realization of a culture of enlightenment Deligiorgi also considers Kant's ideas in relation to the work of Diderot Rousseau Mendelssohn Reinhold Hamann Schiller and Herder The perspective opened by this historical dialogue challenges twentieth century revisionist interpretations of the Enlightenment to show that the culture of enlightenment is not simply a fragment of our intellectual history but rather a live project **Studies in Burke and His Time**, 1976 The Eighteenth Century, 1974 *Diderot and the Time-space Continuum* Merle L.
