*Hitler's Paratroopers in Normandy* Gilberto Villahermosa, 2019-08-30 A retired U S Army Master Parachutist strategist and military historian analyzes the actions of one German special forces group during World War II In June 1944 Allied forces fighting desperately to establish a foothold in Normandy and then breakout of the confining bocage found themselves opposed by a bewildering array of formations of the German Wehrmacht Among them were the newly formed German II Parachute Corps This gripping new account examines the exploits of Germany's II Parachute Corps and its commander Eugen Meindl from the Allied invasion on June 6 to the end of August 1944 Meindl was the epitome of the senior German airborne commander in the Second World War Tough experienced and aggressive he cared deeply for his troops His Parachute Corps fought stubbornly for three weeks before being forced to fall back Trapped along with the bulk of the German Seventh Army in the Falaise pocket Meindl and his paratroopers maintained their discipline and were selected by the Commander in Chief of OB West to lead the German breakout to the east That they managed to do so despite suffering grievous losses while so many around them died or surrendered is a testament to their dedication and fighting ability Theirs is a story that deserves to be told *The German Fallschirmtruppe 1936-41 (Revised edition)* Karl-Heinz Golla, 2013-07-19

The Fallschirmtruppe of the Wehrmacht won recognition for their valor and endurance not only from their fellow German soldiers but from their former enemies as well On the basis of careful and comprehensive research including utilizing extensive unpublished documentary and personal materials the author covers the history of the Fallschirmtruppe from its genesis and early training to its employment in combat in Scandinavia the Albert Canal in Belgium Holland the Greek mainland and of course at Crete The reasons for the remarkable successes of the German Fallschirmtruppe during this period are analyzed as are also the conceptual weaknesses inherent in its formation and the faults in the command and control during its combat employment The author himself a former Bundeswehr Fallschirmjäger and General Staff officer has also utilized accounts from those who fought the Fallschirmtruppe and has thus been able to correct many errors perpetuated in previous books on this subject besides providing more complete coverage The text is supplemented by approximately 100 b w photos and more than 25 detailed color maps This is a remarkably detailed study firmly based on documentary sources and is destined to become one of the definitive works on its subject in the English language This revised edition has been prepared exactly according to the author's instructions **Die Fallschirmjägerchronik,**

**1935-1945** Erich Busch, 1983 **Operation Fall Weiss** Stephan Janzyk, 2017-08-30 While the fledgling German paratroop operations in Belgium and the Netherlands in 1940 and on Crete in 1941 attracted worldwide attention what is not as well known is that the use of paratroopers was planned for the invasion of Poland in 1939 in an act that began the Second World War This has given rise to the myth that Adolf Hitler wanted to keep this new and hitherto little known branch of the armed services secret for future projects However on several occasions the men of Parachute Regiment 1 were sat ready in their
