The Impact of Asian Powers on Global Developments Erich Reiter, Peter Hazdra, 2013-03-09 The international political and military strategic importance of the Asian continent has dramatically increased in recent years and it is conceivable that world affairs in this century will be significantly influenced by developments in Asia This volume examines on the one hand the strategic goals of the most influential powers in the Eurasian region in particular India Pakistan China Russia and Japan but also the USA that is strongly involved in the region and on the other the relations that these states have with each other Special attention is paid to the subjective perceptions and thought patterns of the different players for the perception that international political players have of the outside world is an important element that is frequently neglected in political and military analyses

The Means to Kill Gerrit Dworok, Frank Jacob, 2015-11-12 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people's belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives

External Communication in Social Media During Asymmetric Conflicts Bernd Hirschberger, 2021-07-02 Social media increasingly shapes the way in which we perceive conflicts and conflict parties abroad Conflict parties therefore have started using social media strategically to influence public opinion abroad This book explores the phenomenon by examining 1 which strategies of external communication conflict parties use during asymmetric conflicts and 2 what shapes the selection of these communication strategies In a comprehensive case study of the conflict in Israel and Palestine Bernd Hirschberger shows that the selection of strategies of external communication is shaped by the asymmetric conflict structure
