Poe, Fuller, and the Mesmeric Arts Bruce Mills, 2006 Examines how the writings of Edgar Allan Poe and Margaret Fuller draw from representations of and theories concerning animal magnetism somnambulism or hypnosis rendered in newspapers literary and medical journals pamphlets and books and also includes discussion of Ralph Waldo Emerson Lydia Maria Child and Walt Whitman Provided by publisher *A Science for the Soul* Corinna Treitel, 2004-04-20 In *A Science for the Soul* historian Corinna Treitel explores the appeal and significance of German occultism in all its varieties between the 1870s and the 1940s locating its dynamism in the nation's struggle with modernization and the public's dissatisfaction with scientific materialism Occultism Treitel notes served as a bridge between traditional religious beliefs and the values of an increasingly scientific secular and liberal society Drawing on a wealth of archival materials Treitel describes the individuals and groups who participated in the occult movement reconstructs their organizational history and examines the economic and social factors responsible for their success Building on this foundation Treitel turns to the question of how Germans used the occult in three realms of practice Theosophy where occult studies were used to achieve spiritual enlightenment the arts where occult states of consciousness fueled the creative process of avant garde painters writers and dancers and the applied sciences where professionals in psychology law enforcement engineering and medicine employed occult techniques to solve characteristic problems of modernity In conclusion Treitel considers the conflicting meanings occultism held for contemporaries by focusing on the anti spiritualist campaigns mounted by the national press the Protestant and Catholic Churches local and national governments and the Nazi regime which after years of alternating between affinity and antipathy for occultism finally crushed the movement by 1945 *On the Edge of the Future* Jeffrey John Kripal, Glenn W.
