The Poet's Role Ruth J. Owen, 2021-10-18 This study of contemporary German poetry represents the first attempt to examine comprehensively and at some length the lyric response to the unification period It sets out to investigate by means of close textual analysis whether the German Wende was also a turning point for poetry exploring how GDR poets responded both to the revolutionary events of 1989 and subsequently to the new united Germany An introductory chapter considers what is distinct about poetry as a genre especially under censorship or amid historic change as well as outlining the post unification Literaturstreit The following chapter offers a survey of the poet's role in the GDR from 1949 until 1989 Two central chapters then gather the poetry of the Wende and unification as a corpus of work and characterize it through the elucidation of recurring themes motifs and techniques The volume strikes a balance between giving a general overview of poetry written in 1989 1996 and focusing on individual poets whose work is particularly compelling After identifying broad trends across a wide range of individual poems collections and anthologies single chapters therefore examine in greater depth the work of Volker Braun and Durs Grünbein The concluding chapter addresses the issue of a separate GDR literature Finally an extensive structured bibliography is provided covering the poetry literary criticism and cultural history of the period
