With today's institutional programs and faculty leveraging cutting edge virtual augmented and mixed reality opportunities to teach and promote achievement goals, it is imperative that new research into these technologies speaks directly to their challenges and affordances within broad academic settings. This book showcases real world examples of faculty members who chronicle and develop their use of VR tools across learning contexts and student populations by creating their own digital experiences, adapting open source tools, integrating commercial products, amplifying crucial course content, analyzing outcomes data, and more. Nontechnical readers will come away with a new understanding of key terms and concepts associated with virtual reality and essential heuristics for evaluating the ethical implications of immersive approaches. *Handbook of Research on Teaching With Virtual Environments and AI* Panconesi, Gianni, Guida, Maria, 2021-02-19 The increasingly pervasive use of digital technology has catapulted society into an interconnected world where the natural boundaries between humankind and machine, virtual and real, individual and community have become less perceptible. Digital intelligence includes understanding the mutual strengths between people and technology as well as developing an awareness in the use of digital tools in order to avoid common threats such as cyberbullying, addiction to video games, techno stress, and more. As adolescents continue to engage with virtual reality and 3D virtual worlds where the online and offline overlap and coincide, it is important to build this intelligence as well as utilize these technologies to promote successful learning. *The Handbook of Research on Teaching With Virtual Environments and AI* explores the new personalized educational opportunities that are available with digital technology and virtual environments that can be used within education. This book focuses on the use of these tools and how to navigate the use of new technologies such as AI and virtual environments for educational practices.
