Black Panther and Philosophy Edwardo Pérez, Timothy E. Brown, 2022-02-15 Explore the fascinating historical and contemporary philosophical issues that arise in Black Panther In Black Panther and Philosophy What Can Wakanda Offer The World a diverse panel of experts delivers incisive critical reflections on the Oscar winning 2018 film Black Panther and the comic book mythology that preceded it The collection explores historical and contemporary issues including colonialism slavery the Black Lives Matter movement intersectionality and identity raised by the superhero tale Beyond discussions of the influences of race and ethnicity on the most critically and culturally significant movie in the Marvel Cinematic Universe this book presents the moral feminist metaphysical epistemological existential and Afrofuturistic issues framing Black Panther's narrative The explorations of these issues shed light on our increasingly interconnected world and allow the reader to consider engaging questions like Should Wakanda rule the world Was Killmonger actually a victim Do Wakanda's Black Lives Matter Does hiding in the shadows make Wakanda guilty What does Wakanda have to offer the world Perfect for fans of the most culturally significant film in the Marvel Cinematic Universe Black Panther and Philosophy will also earn a place in the libraries of students of philosophy and anyone with a personal or professional interest in the defining issues of our time

Algorithms of Armageddon George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex Algorithms of Armageddon examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could replace humans Algorithms of Armageddon provides a time critical understanding of why
