Transmedia Selves James Dalby, Matthew Freeman, 2023-10-20 This book examines the mediated shift in the contemporary human condition focusing on the ways in which we synthesise with media content in daily life essentially transmediating ourselves into new forms and re creating ourselves across media Across an international roster of essays this book establishes a transdisciplinary theory for the transmedia self exploring how technological ubiquity and digital self determination combine with themes and disciplines such as celebrity culture fandom play politics and ultimately broader self conception and projection to inform the creation of transmedia identities in the twenty first century Specifically the book repositions transmediality as key to understanding the formation of identity in a post digital media culture and transmedia age where our lives are interlaced intermingled and narrativised across a range of media platforms and interfaces This book is ideal for scholars and students interested in transmedia storytelling cultural

studies media studies sociology philosophy and politics *Digital Exhaustion* Paul Leonardi, 2025-10-07 A revelatory examination of why you're feeling so worn out and practical daily strategies to change your relationship with your devices. Unplugging is not a long-term solution for the stress caused by technology. If you want to keep your job, participate in society, and maintain meaningful relationships, you can't escape your many apps and devices. Paul Leonardi maps out an achievable path to reducing your digital exhaustion, drawing on extensive research to show how real people can use technology in healthy ways. These are realistic approaches that won't fragment your attention and deplete your cognitive and emotional reserves. Many of the changes are simple yet surprisingly effective, like waiting longer to respond, making sure you're using the right tool for your task, and being more conscious of the time and energy we allocate to our devices. He also explains the emotional traps that lead us into dysfunctional relationships with our technology and how to escape them. With Leonardi as your guide, you can build stronger connections, be more creative and productive, and create the mental space to reclaim your energy and your life.

Product-Focused Software Process Improvement Dietmar Pfahl, Javier Gonzalez Huerta, Jil Klünder, Hina Anwar, 2024-12-01 This book constitutes the refereed proceedings of the 25th International Conference on Product Focused Software Process Improvement PROFES 2024 held in Tartu, Estonia during December 2-4, 2024. The main theme of PROFES 2024 was professional software process improvement (SPI) motivated by product process and service quality needs. The technical program of PROFES 2024 was selected by a committee of leading experts in software process improvement, software process modeling, and empirical software engineering.

The De Gruyter Handbook of Robots in Society and Culture Leopoldina Fortunati, Autumn Edwards, 2024-09-23 The De Gruyter Handbook of Robots in Society and Culture provides a comprehensive discussion of how social robots take form, function, and meaning for individuals, relationships, cultures, and societies. Through a path-breaking integration of perspectives coming from sociology, communication, and media psychology, cognitive neuroscience, anthropology, political science, and science and technology studies, it focuses on the critical and social meaning of present developments in social robotic technologies. This book looks at artificial agents from voice-based assistants to humanoid robots as their use transforms private and public contexts and gives rise to both new possibilities and new perils for human beings and becoming organizations, as well as social structures and institutions. The handbook traces the consequences and key problems of social robotics across broad social contexts in both public and political as well as domestic and intimate spaces. Further, it attends carefully to the implications of social robotics for various human identity groups, including those based on gender, ethnicity, culture, class, ability, and age. Deep attention to interdisciplinarity, inclusivity, ethics, and socio-cultural futures serves as the guiding inspiration behind each contribution within this handbook.
