Introduction to Information Systems 8th Edition teaches undergraduate business majors how to use information technology to master their current or future jobs. Students develop a working understanding of information systems and information technology and learn how to apply concepts to successfully facilitate business processes. This program demonstrates that IT is the backbone of any business whether a student is majoring in accounting, finance, marketing, human resources, production, operations management, or MIS. You to the Power of Two Joseph Bradley, Don Tapscott, 2025-12-02. A new and previously unexplained era of artificial intelligence will transform human life forever. Discover what this means for our personal identity and our future. AI tools are already reshaping the way we work and communicate but as they gain autonomy they will no longer be mere tools; they will become active participants in our world. As our digital identities become smarter and more capable, we enter the age of identic AI, a world where ever-present AI companions streamline daily tasks, enhance wellbeing, and offer lifelong learning. For professionals, these intelligent agents will amplify creativity, boost productivity, and expand human potential. But with this extraordinary promise comes profound risks to individuals, businesses, and society itself. From technology experts Joseph M. Bradley and Don Tapscott, *You to the Power of Two* is a thought-provoking and timely guide that will prepare readers to thrive in a world of personal AI agents by revealing how our new digital sidekicks will transform our careers, healthcare, education, and relationships. Empowering readers to embrace AI with confidence and purpose rather than fear, exploring AI's role in redefining human potential, success, and the institutions of society, explaining self-sovereign identity and decentralized AI models that will safeguard autonomy, control, and future. For individuals, businesses, and policymakers alike, identic AI will reshape how we work, learn, and connect. Will we harness its power for a more equitable future, or will we let it shape us in ways we can't control? The future isn't written. It's ours to create. **Digital Content**

Marketing in the Global Environment. Evaluation of Global Companies in the Chemical Industry Matthias Hebben, 2021-04-27. Master's Thesis from the year 2019 in the subject Business Economics, Business Management, Corporate Governance, grade 2.0. University of Applied Sciences Northwestern Switzerland, language English. Abstract: This Master thesis explores the phenomenon of Digital Content Marketing (DCM) by evaluating if content marketing and its tools have a positive impact on global companies in the chemical industry. Rapid globalization and the development of new markets at an increasingly global scale have made DCM more important. However, global companies are facing new challenges like new technological developments and trends and a changing consumer landscape that requires new marketing approaches. Strategies are required to overcome these challenges, adopt DCM techniques, and use current techniques to gain competitive advantages. However, there are still companies that have not included digital content in their marketing strategy. Others have difficulties making their marketing content unique and powerful. The main issue is often measuring the effectiveness of one's digital content to determine whether DCM has a positive impact. **The Hanson Guide to the Internet & Internet**
