Multilingual Classrooms for Young Children in the UK Jieun Kiaer, 2025-01-14 This book demonstrates the importance of raising multilingual children in the UK both for the children's own benefit and for the benefit of society as a whole Against the backdrop of both the rich linguistic diversity already present in the UK and the challenges faced by any languages other than a few major European languages to find any space in educational contexts the author challenges the myth that multilingualism hinders English language acquisition and use instead emphasising the cultural and cognitive advantages of multilingual education and support for home and community languages The book is a call to action for educators policymakers and parents combining practical strategies with research based insights to support its readers in advocating for multilingual education It presents a hopeful vision for education in the UK where teachers can combine technological innovations and the linguistic resources of their classrooms and communities to support and promote multilingualism

Modes of Representation in Developing Statistical Thinking in Education Anastasiadou, Sofia D., Seremeti, Lamprini, 2025-05-29 Developing the ability to understand and use multiple representations is vital for deepening students comprehension of statistical probabilistic and mathematical concepts

This skill enhances problem solving by enabling learners to translate ideas across various forms leading to more flexible and meaningful understanding. Representational competency is closely linked to communication, critical thinking, and the ability to engage with real world data. Moreover, students' attitudes, emotions, and self confidence significantly influence their motivation and success in these subjects. Strengthening these aspects in education can lead to more effective learning experiences and greater long term achievement in math and statistics.

Modes of Representation in Developing Statistical Thinking in Education explores different modes of representations in teaching and learning statistical probabilistic notions and attitudes in developing statistical thinking in education. By bringing together contributions from global experts, the volume fosters interdisciplinary collaboration, inspires new research directions, and provides the knowledge and tools necessary to navigate the evolving landscape of statistics education. Covering topics such as artificial intelligence, mathematics education, and web tools, this book is an excellent resource for researchers, academicians, educators, policymakers, data scientists, and more.

The Role of Generation Alpha in Building a Strong Organizational Culture Şeker, Cemile, Polat, Murat, 2025-10-23

The ongoing digital transformation is fundamentally reshaping human behavior, communication, and social structures, with particularly profound implications for the workplace. Generation Alpha, the first generation to be fully immersed in digital technology from birth, brings with it a unique blend of technological fluency, global awareness, and strong values around inclusivity, sustainability, and ethical responsibility. As this generation enters the workforce, their expectations for collaboration, flexibility, and meaning-driven work challenge traditional organizational norms and leadership models. Understanding and adapting to these shifts is essential for building resilient, future-oriented organizational cultures.

The Role of Generation Alpha in Building a Strong Organizational Culture examines the impact of Generation Alpha on organizational culture as they begin entering the workplace. It explores how Generation Alpha's value system, technological savvy, communication styles, and leadership ambitions engage with organizational culture frameworks. Covering topics such as artificial intelligence, hyper personalization, and social intelligence, this book is an excellent resource for academicians, researchers, graduate and postgraduate students, corporate leaders, HR professionals, educational leaders, policymakers, and more.

Navigating the Complexities of Health Professions Education for Millennial and Generation Z Learners Channing R. Ford, Kimberly B. Garza, Lindsey E. Moseley, Emily B. Wilkins, 2024-01-16

The evolving landscape of healthcare tasks health professions educators with preparing the next generation of providers to be adaptable, responsive, and self-directed to ensure that they are prepared for entry into practice. The complexity of developing, implementing, and assessing health professions education is further compounded when educators consider the expectations of their learners and strive to integrate their needs and expectations into the learning environment. As a result of the varying academic requirements of health professions disciplines, educators may be faced with teaching students spanning multiple generations, to primarily include Millennial and Generation Z learners. Educators must be prepared to anticipate, identify, and respond to differing generational expectations.

to ensure that health professions students are equipped with the knowledge skills and abilities needed for practice This book examines generational differences between Millennial and Generation Z learners to inform health professions educators of those generational characteristics and expectations The book also illustrates how higher education has evolved and changed as a result of the COVID 19 pandemic and the impending demographic cliff how educators can adapt the varying learning environments classroom clinical and experiential present within health professions education and provide best practices to consider when developing implementing and revising learning opportunities

Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master's Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1.0 language English abstract What will happen if there aren't enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany's 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany's weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks
