and I'm located in Arizona and I'm a digital marketer and I specialize in lead generation and also have a company called Proprosity. So far my experience with Marketing Blocks has been a pretty good reasonable experience thus far and the tool shows some promise and some potential. I haven't had any opportunity to take any of the training that's been provided over the training has been pretty valuable and I found some good ideas out of there and also it's helped me today to save some time with finding content ideas and also creating ad copy for my campaigns. So yes I would recommend Marketing Blocks? I would say yes and I'm also interested in your affiliate program and I'd like to learn more about that. Now if you're an individual that's unsure or uncertain about the company I would definitely say give it a closer look because the way things are going in the market and the way AI technology is taking over and what these guys put together is actually pretty unique and based on what I saw or what you see on their sales copy there are some really good points that they try to give value in certain areas that can really help you as a business owner or as someone that's looking to stay ahead of the curve and be on top of what's going on with AI technology and just a lot of things that are happening in the space. You may want to give it a second chance or at least evaluate the company for your own self just like I did. Thank you. Thank you.
