Kagan, Maqbool Dada, Brett Hathaway, 2022 Despite recent advances in language processing algorithms chatbot technology continues to face adoption hurdles We survey chatbot users about their experiences and use their testimonies to construct a decision model of customer choice between the chatbot service channel and the live agent service channel The fundamentals of this choice are the time spent in line and in service the chatbot's success rate and the qualitative differences in the service experience provided by the chatbot and by the live agent We then conduct experiments in which participants choose and then experience the chatbot or the live agent channel as we vary operational i.e. times spent and chatbot success rates and qualitative features of the chatbot We find that users respond positively to improvements in chatbot operational performance however the chatbot channel remains underutilized relative to what expected time minimization would predict Additional experiments show that this underutilization is caused by two separate mechanisms algorithm aversion aversion to an algorithmic service provider and gatekeeper aversion aversion to any service format that may involve multiple stages Examining potential remedies we find that algorithm aversion can be mitigated by making salient the expected time savings offered by the chatbot However gatekeeper aversion is more persistent and harder to overcome We conclude by building and estimating a structural model of channel demand and by proposing a behavior aware service design that reduces the firm's staffing costs by up to 22% **How to Build AI Chatbots Without Coding Step by Step Tutorial**, 2025-07-18 Unlock the future of digital interaction with How to Build AI Chatbots Without Coding Step by Step Tutorial This comprehensive ebook takes you from the basics to advanced tips guiding you through selecting the right tools designing conversational flows integrating services automating tasks and analyzing performance Whether you're a small business owner marketer educator or entrepreneur you'll gain hands on techniques to create launch and optimize powerful AI chatbots no programming experience required no code chatbot AI chatbot tutorial build chatbot without coding chatbot ebook chatbot automation chatbot for beginners chatbot integration chatbot design chatbot business chatbot step by step **ChatGPT Money Machine 2025** Kenneth K.
