Online Personal Brand Ryan M. Frischmann, 2014-07-19 Online personal branding is a requirement for all professionals The common argument of the experts is you have a digital footprint in social media and on the internet so people are already making impressions of you Take control of their perceptions More importantly you have an opportunity to proactively project your personal brand onto networks Two other advantages of personal branding are that it forces you to be visionary of your career goals and helps you land favorable employment This book shares a functional angle to personal branding that is refreshingly simpler than the traditional marketing angle The definition of an online personal brand is the combination of a skill set an aura and an identity and there is discussion where the concepts overlap *Executive Presence 2E (PB)* Harrison Monarth, 2019-06-07 Be the kind of leader that other leaders envy by strategically harnessing the extraordinary power of perception One of today's most in demand leadership consultants Harrison Monarth has coached executives and CEOs in various industries from technology medicine and law to hospitality and consumer products They have come from companies as large and wide ranging as Hewlett Packard P G General Motors Deloitte Consulting PepsiCo and Standard and Poor's Monarth has now updated his classic groundbreaking guide to give you the edge on the competition in today's dog eat dog business landscape Building an executive presence is about being in control of your emotions when you're under stress It's about knowing yourself well enough to clearly see the impact and influence you have on others It's about managing your behaviors so you always foster trust and credibility It's about leaving absolutely no doubt about the value you contribute to others and your organization And it's about actively monitoring and managing your reputation to achieve important outcomes Monarth takes you step by step through the process of building your personal brand as the kind of leader everyone trusts to do the right thing at the right time and as the one person people automatically seek out to lead them through the most challenging situations There's no replacement for basic leadership talent and skills But what makes someone a top tier leader those who take their organization from a solid industry player to the unchallenged industry frontrunner is the ability to harness the power of perception to engage stakeholders at any level and make things happen Executive Presence delivers
